

# Ko-op still minus grocery store

Ideal. That's how Ideal Grocery, 905 S. 27th Street, appeared to ASUN after a study of several city grocery stores.

On the basis of price, selection, location and hours, Ideal Grocery is now being sought as an Associated Student Ko-op (ASK) member store according to Sue Overing, ASUN second vice president.

Ideal Grocery would give a percentage discount, she said.

A food price survey was conducted in June by Miss Overing to find a grocery store for the Ko-op which "is cheaper than most".

The survey food items are "foods students have to buy" and the indicated "prices are not specials". She said the

survey prices are still fairly accurate.

Hoping to wind up business arrangements last week, contracts still have not been signed with either Ideal Grocery or the Warehouse Market. Miss Overing has been discussing the possible reduction of Warehouse Market's \$2 monthly membership fee to \$1 for Ko-op members with its manager.

A contract was concluded with a garage last Monday. The Pit Stop, 11th and B streets, is a self-service auto repair shop which offers a percentage discount on parts and equipment to Ko-op cardholders.

## Symposium on U.S.-Japan

Former U.S. Ambassador to Japan, Edwin Reischauer, will be the featured speaker at a public symposium on United States-Japanese Relations in the Decade of the 70's at the University of Nebraska - Lincoln September 19-20.

Peter Cheng, professor of political science and coordinator of the symposium, said the two-day event will be held in the Sheldon Memorial Art Gallery.

Reischauer will discuss prospects for United States-Japanese relations in the next decade on the morning of September 20. He is currently serving as professor of history at Harvard University.

The special Japanese Symposium also will feature panel discussions, Japanese films, art and cultural programs in Sheldon. There will be no registration fee.

Cheng said the symposium is being partially financed by the Japanese Consulate General in Chicago.

The United Ministries in Higher Education (UMHE) has changed its name to Commonplace. The name was changed and the sign replaced because the old sign was falling apart and because Wesley House had come under the control of UMHE

as of January 1, when the United Ministries in Higher Education and United Methodist Church combined. UMHE was renamed Commonplace to distinguish it from the Wesley House, which also is a part of UMHE.
