Trophy will be given

Coach and players will be present.

Union...

Continued from Page 11

council containing five subcommittees: speakers; music; drama and dance; film and art; communications/publicity.

The council would appropriate funds between various subcommittees, which would be chaired by a student and faculty member.

According to Howlett and Long's proposal, the council would "provide more continuity, make possible long-range planning... and provide better coordination of scheduling publicity."

Student board member Dave Pankonin commented that the proposal might increase efficiency at the cost of learning experiences of students involved in the 16 programming committees.

He said present programming committees allow a student with an idea to present it and become involved with a committee to pursue his idea.

He said the structure of the proposed council might discourage students from initiating individual ideas.

In final order of business, examination of groups eligible to use Union services was brought up by Bennett for discussion.

Bennett said a "pressing economic situation is forcing the Union to respond to the available dollar."

Now only student, faculty and administrative groups or events arising out of these groups are eligible to use the Union.

Bennett said eligibility might have to be expanded to meet financial needs.

Ad Council

Would you hire you?

Of course you would. You work hard. And you're good at it. Like most Americans. But, if all of us did just a little better, we'd wind up with better products, better services and even more pride in the work we do.

America. It only works as well as we do.
