## Unsatisfied Humm

One loss and a tie in the first eight football games would satisfy many fans, but not junior quarterback Dave Humm nor his fellow Husker teammates.

"Our record is not indicative of the team we possess," Humm said with a Nebraska break or two they could easily be an undefeated squad.

"The first half of the Colorado game was one of the best halves we've played all season. We were able to capitalize on their mistakes. The game will have a confidence-building effect on the team," he said.

Humm said he tries not to spend too much of his free time outside practice concentrating on an opponent. "If one works hard at the practices and knows some of his foe's defensive weaknesses, he is about as well prepared as possible. Worrying will never help anyone."

He said he was glad senior split end Frosty Anderson has returned to the Huskers' lineup. "He's the kind of guy who gives you 110 per cent." Anderson's 21-yard TD pass reception in the Buffalo game was his seventh of the season.

"I'm looking forward to the Oklahoma rematch. However, in doing so I am not about to overlook either Iowa State or K-State," Humm said.

"Some people call this a disappointing team. I too was hoping for an undefeated year, but the season isn't over yet, and I feel from now on you'll see a much improved Nebraska team," he said.

Humm said people who feel Big Red is dead should be prepared to change their minds after the Huskers' next three contests.

"None of the players have talked about a bowl game as of yet. However, I'm sure it's in the back of most of our minds."
