Union takes steps to save energy

The Nebraska Union has begun to participate in the energy conservation measures, according to Daryl Swanson, assistant director of the Union.

Swanson outlined four major measures in a memo.

1. Thermostat settings will be reduced to 65-68 degrees;
2. Air handling fans will be shut down each night from 10 p.m. until 6 a.m.;
3. Interior building lighting will be reduced by removal of some light bulbs and fluorescent tubes,
4. Spaces not occupied by the public, personnel, or not in use, will be reduced to 55 degrees.

Swanson said anyone seeing a need for raising or lowering room temperature should contact the Union Administrative Office.

The Continuing Story of Herman & Eloise. . .

ELOISE: You male chauvanist pig!! You couldn't get me to go if you dressed me yourself, and besides, you don't go to a Rock Opera in long dresses and tuxedos.

HERMAN: Who said anything about stuff like that? I meant a dress-up affair!

The Music Lover

"If we could have devised an arrangement for providing everybody with music in their homes, perfect in quality, suited to every mood, and beginning and ceasing at will, we should have considered the limit of human felicity..."

Edward Bellamy
1887

If music lovers ruled the world, perhaps there would be peace (though not necessarily quiet) everywhere. We at TEAM share the music lover's passion for beautiful music of all kinds. That is why our high fidelity systems are designed to be music systems first—and a substitute for silence last.

We take special care to combine components which work together harmoniously to produce a quality of sound the true music lover can love.

If you're one of these nice people, we'd like to meet you. Bring in a favorite record and play it on one of our many music systems. (We'll even clean it for you with our very effective Discwasher.)

Music lovers will especially enjoy the Pioneer system shown here, which we have named "Tanagra" because we believe it to be a universal remedy for all sorts of bad vibes.
