Enjoy this summer in a NATIONAL PARK and get paid for it!

Each year, thousands of people are hired by private companies operating visitor facilities in many national parks. If you're accepted, you'll work and live with others from every section of the country, spending the summer amid spectacular, unspoiled, natural wonders. No special skills required. Minimum age is 18; there's no maximum. Students comprise a majority of each park's staff; it's also a super program for faculty, couples and vets. These are not Federal jobs — no need to take Civil Service examinations.

A comprehensive new booklet, "Vacation Employment in our National Parks," discusses every aspect of this great opportunity; types of positions, how and where to apply, salaries, housing, food, jobs for couples, recreational activities and many more. The author is Earle Hamilton, former Director of Personnel for Yellowstone Park Company, who each year employed over 2,000 persons for summer work in the nation's oldest and largest park!

Here's the chance to combine your love of nature and the outdoors with the perfect summer job. Hiring commences in January, so right now is the time to learn the fascinating facts. Send only \$2.95, incl. postage, to Earle Hamilton, Box 2256, Monterey, California 93940.

BOWLERS

There will be a Scratch League, no handicap, forming this Saturday, Jan. 26th, 12:00 noon, at the Nebraska Union Bowling Lanes.

Three man teams will bowl three games at a cost of \$2.00 per person. All University students, faculty and staff are welcome.

This Saturday will begin the league bowling, so have all team members present. League rides will be established this Saturday.

Contact Pat Scanlon at 472-2181 if you need more information.

EPILEPSY SUBJECTS NEEDED FOR EXERCISE RESEARCH

Individuals with epilepsy or related convulsive disorders are needed to participate in a study on the effect of exercise on epilepsy. Individuals desiring more information at no obligation are asked to call the University Health Center's Physical Fitness Research Laboratory (472-2297).
