Assembly on energy scheduled

Students and faculty will have a chance to hear arguments about the energy crisis at a special assembly, "The Energy Crisis—Real or Contrived?", Tuesday at 2:30 p.m. in the Nebraska Union.

The assembly is presented in connection with National Charter Week, Feb. 11-15, which marks the 105th anniversary of the founding of UNL.

Speakers at the assembly will be Milton Russell, professor of economics at Southern

Illinois University; Willis Meyer, consulting geologist in Dallas, Tex.; and James Newman, acting regional administrator of the Federal Energy Regional Office at Kansas City.

Speakers will discuss alternative energy sources, the current government forecast on energy supplies and adjustments to an energy crisis, according to Prof. John Fagerstrom, chairman of the Geology Dept.

UNL Chancellor James Zumbege will preside at the assembly.

Games... Fun in a box.

short stuff

Arts and Sciences College students interested in the Donald Walters Miller Scholarship for 1974-75 may get application blanks in the Dean's Office, Oldfather 1223. Students must be sophomores, juniors or seniors. Those with a 3.8 average or higher are the most likely candidates.

Applications for the Medical College Admissions Test to be given on May 4 and Oct. 5, are now available. Students may pick up their applications from any of the following: John Demuth, Hamilton 728A, Paul Landolt, Oldfather 440, Gerald Tharp, Oldfather 442, Jack Tribble, Lyman 303 or the School of Life Sciences, Oldfather 431.

Outreach, a telephone crisis service operated by the University Health Center, will conduct spring training starting March 9. Interested students can pick up applications in the Mental Health Clinic, UHC 104.

Don't play TIC-TAC-TOE with your future!

By now you realize that good jobs require training. In this day and age, you have to make your own breaks. You have to find what's right for you, and that requires a decision. Don't play tic-tac-toe with your future. It could be very costly.

Computer programming could be your field. It's a field that's constantly growing and consistently offering more and better opportunities. Computer programming requires desire and ability. You supply the desire and we'll supply you with a test that determines if you have the ability.

If you do have the ability, we can train you in as little as four short months in either our Omaha or Lincoln school. Evening programs are also available. Both schools are eligible under the federally-insured Student Loan Program, and approved for Veteran's Training.

Clip the coupon. Send it in or call Lincoln 477-9844 today. It could be the wisest move you ever made.
