We have the lenses that change  
as quickly as the weather.

Our SENSENOR lenses get darker when the sun's out,  
lighter when it's not. Automatically.

No matter what time of day or what kind of weather.

Your glasses adjust themselves to the light—perfectly. Just like your eyes do.

And you can choose from over 200 frame styles.

So ask for the all-new SENSENOR lenses.
