HIGHLY SUCCESSFUL PROGRAM EXPANDING INTO UNIVERSITY OF NEBRASKA

Interviewing in LINCOLN

An opportunity to join a young-minded inspired sales organization that has taken a new program from idea to huge success in two years.

You must be a thinker; energetic; determined to get ahead; too impatient to wait for the usual advancement. A responsible nonconformist... Mr. or Ms... who can communicate in a college campus environment. You'll present a professional service, a universally accepted product, in individual interviews. The income potential and benefits are exceptional.

- No night or cold canvassing
- Comprehensive class or field training
- Management advancement opportunity
- Company benefits program
- Guaranteed starting income
- Rapid advancement to commission earnings (should average \$12-20,000 your first year).

Direct sales background and a college degree are desirable but not essential. To arrange a personal interview, write:

This is your key to unprecedented calculating capacity. Only Hewlett-Packard offers it.

It lets you "speak" to your calculator with total consistency, because it lets you load data into a 4-Register Stack. This means: (1) you always enter and process your data the same way, no matter what your problem; (2) you don't have to re-enter data; (3) you can see all intermediate data anytime.

Our HP-45 is one of two pre-programmed scientific pocket-sized computer calculators with this key. That's one reason it's the most powerful pre-programmed pocket-sized scientific computer calculator. Here are three of many others:

1. It's pre-programmed to handle 44 arithmetic, trigonometric and logarithmic functions and data manipulation operations beyond the basic four (+, -, x, ÷).

2. It lets you store nine constants in its nine Addressable Memory Registers, and it gives you a "Last X" Register for error correction or multiple operations on the same number.

3. It displays up to 10 significant digits in either fixed-decimal or scientific notation and automatically positions the decimal point throughout its 200-decade range.

Our HP-35 is the other. It handles 22 functions, has one Addressable Memory Register and also displays up to 10 digits in either fixed-decimal or scientific notation. It's the second most powerful pre-programmed pocket-sized scientific computer calculator.

Both of these exceptional instruments are on display now. If you're looking for unprecedented calculating capacity for your money, by all means see and test them.
