Volunteer...

Continued from Page 1

A special kind of attitude, rather than a special kind of person, is needed for volunteer work, Scheier said.

Those who are involved in volunteer work are discovering that it's a "short-circuit" approach to getting things done, Scheier said. Citing the mental health field, he noted recent government appropriations for the area, but said that volunteers, working within existing programs in the area, could accomplish more than the government in the time it would take to OK funds, set up new programs and provide them with professional staff.

"You and I can affect what the hell's happening," Scheier said, denying the idea that volunteerism may be dying out, especially on college campuses.

"People are just a lot more sophisticated about the issues now," he said. "In the '60s, all you had to be was a nice person. That isn't enough now."

What people have now, according to Scheier, is a frustrated idealism. "But we can adapt to it," he said. "We have enough insight into what volunteering involves so that it will continue."

short stuff

All students who entered a post-secondary educational institution after April 1, 1973, are eligible to apply for Basic Grants. Application forms are available in the Office of Scholarships and Financial Aids, Administration Bldg. 113.

All eligible students are encouraged to apply immediately. The grants must be applied for separately from different forms for aid. There is no application fee.

The UNL Collegiate Band will give an outdoor concert at 7 p.m. Thursday on the north side of Kimball Recital Hall. The concert is free and open to the public. In case of cold or wet weather, the concert will be held inside Kimball Recital Hall.

A 10-week charter flight to Europe will be offered this summer by the UNL Overseas Opportunity Center. The flight, open to UNL and UNO students, faculty, staff and immediate families, will depart from Chicago for Paris May 26. It will return from Paris Aug. 9. Cost of the flight is \$311. If interested, contact the Student Activities Office, Nebraska Union 200, or phone 472-2484.

You're serious about photography. So is the Canon F-1.

To you, photography is more than a hobby. You may never want to become a professional. Yet, your photography is as important a means of self-expression to you as your speech. You demand the same excellence in your photographic equipment as you do of your photographic skills.

The Canon F-1 is the camera that can fulfill any photographic task to which you put it. It can stand up to your ability in any situation.

Naturally, a great camera like the F-1 won't ensure great results. That's up to you. Yet—it's nice to know that your camera can grow with you as a photographer.

Part of the reason for this is the F-1 system. Since it was designed in totality, it offers total performance. There is nothing "added on" in the F-1 system. Everything works as it was designed to, and integrates superbly with everything else. You'll spend less time worrying about operating the camera than in shooting. And that's what creative photography is really all about.

Controls fall into place under each finger. It's no accident. Professionals who depend on a camera for their livelihood have a deep regard for the F-1's handling. It's amazing how much a comfortable camera can improve your work.

Sharing these lenses and many of these accessories are the new Electronic Canon EF, with fully automatic exposure control, the FTb, now improved with all exposure information visible in the finder, and the TLb, great for a second camera body or for getting started in Canon photography. Canon. For serious applications. For serious photographers.

Isn't it time you got serious?
