

Question: Is your stereo amp delivering the goods?
Answer: We'll tell you... FREE!
Saturday, May 4.

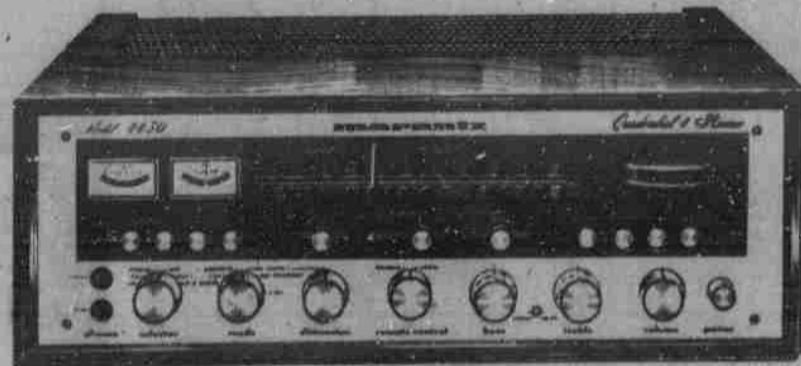

Just bring your stereo amplifier, preamplifier, or receiver — regardless of age, make, or where you bought it, to our downtown store, 414 South 11th, Saturday, May 4, 9 a.m. to 5 p.m.
 The Marantz Audio Analysis Program uses \$7,000 worth of precision laboratory test equipment to thoroughly evaluate the performance of your components. You'll discover if you're getting all the good sound performance you paid for.

We won't try to sell you a
marantz...we promise!

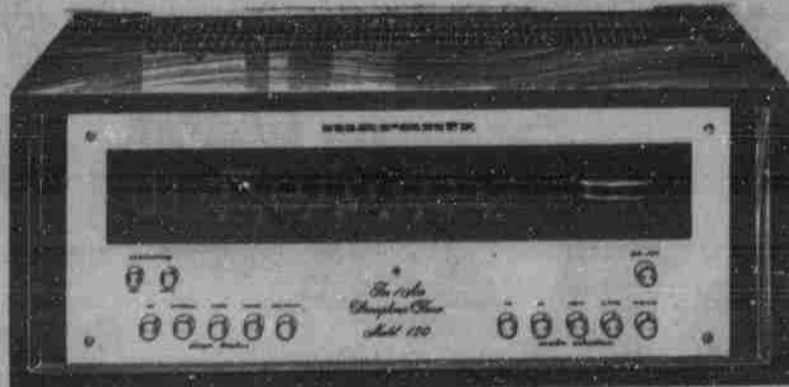

You may find our Marantz components selling themselves by comparison, but we steadfastly promise to make no arm-twisting sales pitches. If you've been in our stores before, you know that isn't the way we do business anyway.
 You will be free, of course, to play with the controls of the fine Marantz units shown below, and many others we have on display.

MODEL 2230 AM/FM RECEIVER
 60 watts RMS, 20-20 kHz with less than .5% THD with superb FM, low distortion FET, RF and IF circuitry.

MODEL 4430 QUADRADIAL
 Close kin to the stereo 2230, but twice the power (120 watts RMS) fed to 4 speakers and provision to accept any new development in 4-channel. (SQ decoder module optional).

MODEL 120 AM/FM STEREO TUNER
 The built-in oscilloscope in this fine tuner shows you the program and tells you how to tune it in perfectly with exclusive Marantz Gyro-touch tuning.

1060 CONSOLE AMP
 60 watts RMS, 20-20 kHz with less than .5% THD—high Marantz quality at a remarkably low price. And you can save up to \$80 on a pair of Marantz Imperial speakers when purchased with any Marantz stereo component, the money-saving 1060 included.

MODEL 250 STEREO POWER AMP
 250 watts RMS, 20 Hz-20 kHz, less than 0.1% THD and IM distortion, with softly-illuminated professional output level meters.

marantz.
 We sound better.

If the Marantz Analysis Program Discovers a Malfunction In Your Components—Our Service Department Can Repair It—No Matter What Brand It Is!
