

Mexican traditions featured in celebration

Fiesta!!! The very word conjures up images of gaily and color. But many Anglo-Americans have no memories to base those images on.

This weekend, the Mexican American Student Association (MASA) will offer Lincoln an opportunity to experience a fiesta first hand. The two-day event is in celebration of Mexican Independence Day, Sept. 16.

The festivities will begin with a dance Saturday from 7 p.m. to 1 a.m. The eight members of El Mariachi Nuevo Guadalajara will provide traditional Mexican music with voice, guitar, violin and brass.

Sunday afternoon from 12 to 4 p.m. the fiesta will continue with El Mariachi Nuevo Guadalajara accompanying as traditional foods are offered for sale.

The celebration will end with a dance on Sunday from 7 p.m. until midnight, again with El Mariachi Nuevo Guadalajara.

All the events are open the public. Admission for Saturday's dance is \$3 per person and Sunday's dance is \$2.50. All events will be at the National Guard Armory, 1776 N. 10th St.

Proceeds from the dance will go to the Simon Orta Scholarship fund. Orta was the first Chicano to receive the doctorate degree from the University of Nebraska. The scholarship is awarded to the Mexican-American student who exhibits academic promise and actively serves the university Chicano community.

The Beogram 3000

One part of a system developed to reproduce sound as it is.

The Beogram 3000 is an integrated, automatic turntable offering utter simplicity of operation and elegant, understated design. All functions are handled by a single master control; the choice of record size automatically selects the correct speed (33 or 45 rpm), a slight touch of the center disk places the stylus tip in the first groove of the record. When the selection is completed, the tone arm automatically returns to its rest position and shuts off the unit.

The tone arm pivots on hardened steel bearings for low horizontal friction. An ingenious system of inclined planes automatically applies the correct amount of anti-skating force as the tone arm travels across the record. A pendulum suspension system isolates the stylus from external vibrations and acoustic feedback.

As a turntable must operate in concert with the cartridge, the Beogram 3000 has been engineered to utilize Bang & Olufsen cartridges. The integration of tone arm and cartridge provides a lower dynamic mass, thus reducing the force required to move the stylus tip, and eliminates unwanted resonances. Bang & Olufsen cartridges have been acknowledged as being among the world's finest.

Bang & Olufsen

Excellence in engineering — Elegance in design
