

short stuff

Mary Swanbom will perform today at 3:30 p.m. at Sheldon Art Gallery in a School of Music flute recital.

Today at 7 p.m., Alpha Zeta Fraternity will meet in the lounge of C.Y. Thompson Library. Dwaine Rogge, executive vice president of First Mid-America, will speak on "Changes in the Economic Stability of Agriculture." The lecture will be followed by a business meeting.

The Student Legal Services Center and the ASUN Legal Rights Committee will hold a legal seminar on "Small Claims Court Procedures" today from 3:30 to 5 p.m. in the Nebraska Union small auditorium.

Today is the last day to pick up lottery tickets for the Colorado migration game. Students with lottery numbers up to and including 936 should pick up their tickets today from 9 to 12 noon and from 1 to 4 p.m. at the South Stadium Ticket Office. Tickets not claimed by 4 p.m. today will be cancelled.

Tryouts will be held today from 3:30 to 5:30 p.m. and from 7:30 to 10 p.m. for the Studio Theatre's production of "A Deed from the King of Spain". All tryouts will be held in the Studio Theatre and perusal scripts are available in Temple 105.

The Student Education Assoc. will hold a reorganizational meeting today at 7:30 p.m. in the Henzlik Auditorium. Membership is open to all education majors, and a mixer and election of officers is on the agenda.

Readers are needed for visually impaired in the areas of legal research, Spanish, and research into cerebral palsy. Many youth also need friends that can serve as adult models. Anyone interested in community development, environmental projects and housing rehabilitation, should get involved in the Labor Co-op. Volunteers are also needed to help with a Halloween party for 70 youth in the Maione Area. Volunteers would work with neighborhood parents to organize the party. Students are also needed to help with parties in Headstart and at Macy, Neb. For more information, contact Student Volunteer Services, Nebraska Union 200.

Jim Carroll enjoys working with a vicious killer.

Just three years out of college, laser technologist Jim Carroll didn't make senior research physicist at Eastman Kodak Company by acting timid. So when he had the courage to pit science against a dread disease, we backed him. Win or lose.

The medical community enlisted Kodak's help in training lasers on the war on cancer. We responded with a pair of 500 million watt laser systems. And left the rest up to Jim.

In time, the lasers proved unsuccessful in treating cancer, but we'd do it again if we had to. Because while we're in business to make a profit, we care what happens to society. It's the same society our business depends on.

Kodak.
More than a business.
