We want to sound you out.

You see, we've discovered a new collection of sound systems by a new firm, Meriton. And we're impressed. So much so that plans are under way to install a permanent Meriton sound center in our store.

As a preview, we're offering Meriton's HF-2000/SP-200. A sleek, remarkably compact component-style FM stereo/FM/AM receiver and turntable system. As you can see, the styling is modern, featuring brushed chrome and walnut cabinetry. But it's not what you see that's important.

Now we can quote features and specifications. Like a solid state amplifier for

resonant sound. OTL/ITL circuit to eliminate distortion. Tone control that increases bass, decreases treble. Tuner with high degree of selectivity. Illuminated tuning bar. Professional style turntable. Tubular tone arm with automatic return and shut-off. Viscous cuing, ceramic cartridge. Wide range speakers housed in acoustically matched walnut veneer hardwood cabinets. Hinged dust cover. But, the proof is in the listening.

That's what Meriton is all about. Listening. Their audio systems have been engineered to satisfy the most sensitive testing equipment around. Your ears. We invite you

to test the HF-2000 in our store. The more you trust your ears, the more we think you'll like it.

Meriton HF-2000/SP-200, \$239.95.
