### WOLLENSACK 8055 8-TRACK RECORDER

An 8-track tape deck for the serious recordist which we're offering at a reduced price not because it's discontinued (quite the contrary — it's only been on the market for about six months), but because of a rare but honest snafu. We ordered, by mistake, three times too many for regular stock. The 8055 includes auto eject, automatic recording level control (defeat-able), a really fast fast forward, pause control and dual slider record level controls.
