BIC 960 & 980 Automatic Turntable

The BIC 960 and 980 Automatic Turntables are brand-new and rather revolutionary. When you couple this with a customer demand that increases every day, you have an availability problem.

TEAM Electronics has a pretty healthy supply right now, but not as many as we'll need once people become familiar with this kind of quality at this kind of price. That's why we're asking people to come in, hear them perform and sign up to be a proud owner. Of course, if you're among the first people that come in you'll be able to leave with a BIC 960 or 980 tucked under your arm! One way or another, we'll make sure you get one as quickly as possible.

Here's what makes the BIC 960 and 980 so special to own: These

precision automatic turntables have been engineered to solve once and for all the "manual vs. automatic" dilemma. They are both belt-drive, virtually eliminating the wow, flutter and rumble-causing problems of the idler drives used almost universally in automatic turntables and record changers. Each is powered by a 24-pole, low speed motor to ensure consistent, silent and error-free platter speed (most automatics use less-precision 4-pole, high RPM motors). Many of the 960's and 980's performance features are not to be had on any other instrument at any price.

The BIC 980 is identical to its companion, the 960, except for the 980's electronic drive, pitch control and lighted strobe. Both feature a low, trim profile and are built entirely in the United States of American-made parts. They are the first turntables of their type built in this country, and they

meet and exceed the high standard of performance you have come to expect only from imported equipment.

The BIC 960 and 980 are available at TEAM Electronics...one way or another.

BIC 980 .. \$199.95

BIC 960 .. \$149.95

Base, dust cover and cartridge extra.

Check out these two fine automatic turntables on page 2 of TEAM's new full-color 1975 catalog. Available FREE at your local TEAM Center!
