ADVENT

SYSTEM **3.**

Nothing you can buy right now is likely to please you more or longer than a really good stereo system.

The system we're featuring here will go on giving you pleasure long after the dust has settled on other things you buy. It's built around a pair of the Smaller Advent Loudspeakers, really remarkable two-way speakers

that for very little money and very little of your valuable living space provide all the music to be heard on recordings and broadcasts. The Smaller Advents were designed to compete with the most expensive speakers available. They cover the full ten-octaves of music, and their sound is clean, detailed, and beautifully balanced for various kinds of recordings.

To power them properly, we've chosen the fine Sherwood S7110 stereo receiver with clean, low-distortion performance and the ability to get all the FM and AM stations up and down the dial.

And for playing records, there's the BSR/McDonald 2510AX automatic turntable with ADC K-7E cartridge and diamond stylus. This combination will get all the music on your records and treat them gently in the process.

These components bought separately would add up to \$466.90 and be well worth it. But our special system price of \$419 gives you even more reason to give yourself the gift of music right now.

So come in and see for yourself how true our headline really is.
