

## Jewish students help police

While you are enjoying your Christmas dinner this year, Sigma Alpha Mu fraternity (SAM) will be seeing that "not a creature is stirring" in Lincoln.

SAM will once again be assisting the Lincoln Police Dept. on Christmas day, according to Lew Pachman, SAM fraternity member. He said that the purpose of the annual event is to benefit the community during the holiday season. "It lets more people spend Christmas with the members of their family," Pachman said.

Pachman said SAM, as well as other Jewish members of the community go out on calls on Christmas day, taking the place of police officers. He said that last year one volunteer wrestled a burglar to the ground permitting police officers to apprehend him.

Though they will not be celebrating Christmas, Jewish students are getting their chance to celebrate the holiday season a little early.

Hannukah, Dec. 8 through Dec. 15, commemorates the rededication of the temple over 2000 years ago by the Maccabees, said Rabbi Robert Kaiser, counselor for the Jewish Student Foundation.

He said people have the misconception that Hannukah is just a "Jewish Christmas" and that simply is not true.

"It has never been such a major festival," Rabbi Kaiser said. "In fact, it is the only Jewish festival not mentioned in the Bible."

He said Hannukah began more as a secular event than as a religious celebration. Gift exchanging, parties and family reunions take up much of the eight-day festival, he said.

## The Canon F-1. Images are what it's all about.

Photographic equipment can be a trip. Sometimes, you can get so involved with it that you lose sight of your real purpose—making photographs.

The Canon F-1 can help you forget about equipment and concentrate on images. It was designed, and functions as an extension of your photographic vision. It's responsive in a way that you must experience to appreciate.

And since it was conceived as a system camera, every part works together with effortless smoothness, from the more than 40 Canon FD and FL lenses to the over 200 accessories.

The heart of the camera is its central spot metering system. With it you can use anyone's exposure system, no matter how critical, since it only measures the central 12% of the finder area—

regardless of the focal length used.

So if you're spending too much time lately worrying about your equipment, it's time you stopped, and took a good look at the Canon F-1 system, and Canon's other fine cameras—the automatic, electronic EF, the Full-feature FTb, and the TLb. If you're interested in images, Canon's your camera.
