The East Campus Union

Here are some reasons you should stop there!

Also for student convenience the East campus university bookstore has moved to the east campus activities building. (Better Known as the east campus union)

The east campus union branch of the University bookstore will have most of the textbook stock for 200, 300, 400, 800, and 900 level courses. The texts for 100 level courses will be available at both locations plus the east campus university bookstore will have a good stock of supplies needed by the student.

At all four locations of the University Bookstore there is a complete selection of textbooks, supplies, cards, gifts, anything.

So whether you are a freshman or senior, graduate or under-graduate, male or female, on the city campus or on the east campus, we've got it all at the University Bookstore.
