

short stuff

An associate professor of chemistry from the University of Iowa will speak on Heterocyclic Small Ring Chemistry today at 3:30 p.m. in Hamilton Hall 104. Refreshments will be served before the lecture in Hamilton 801.

ASUN's Environmental Task Force will meet tonight at 7:30 p.m. in the Nebraska Union main lounge to discuss the nuclear power moratorium bill currently before the Unicameral, and to organize a campaign to support it. Contact Rob Aiken, 435-2961, for further information.

UNL Young Republicans

will sponsor a question-and-answer session with Lincoln State Senator Shirley Marsh Thursday at 8 p.m. in the Nebraska Union.

Theta Chi, Sigma Nu and their Little Sisters are hosting a Benefit Sloppy-Joe Dinner in the Union Harvest Room Sunday, March 2, 5 to 8 p.m. All proceeds from the \$1-a-plate supper will be donated to a fund for Michael Hoitch, 7, who is suffering from a heart disease and requires open heart surgery if he is to live. The operation will take place Feb. 26.

Applications are now available for the Medical College Admissions Tests to be given May 3 and Sept. 27. Applications may be picked up from any of the following:

Dr. John Demuth, Hamilton Hall 728A; Dr. Paul Landolt, Oldfather Hall 440; Dr. Gerald Tharp, Oldfather 442; or Dr. Jack Tribble, Lyman Hall 303.

BACKTIME 60 YEARS AGO

Friday, Feb. 19, 1915—The Cornhusker management wishes to announce that there are still a few valuable pictures left in the office. The person who recently lifted about nine dollars worth of pictures of the Girls' Track had better come and get them.

WAR SUMMARY - German submarines have sunk a French steamer and an English steam collier off the coast of France, but without any loss of life.

"Why don't you do the modern dances?" "Oh, I know all the holds, but I can't slip into them quick enough." - Yale Record

Representative Gerrard Harris, special agent of the Bureau of Foreign and Domestic Commerce, reports that the director general of agriculture in the Republic of San Salvador has requested him to recommend a man capable of taking charge of the new agricultural school which the Republic has started near San Salvador. The salary is \$1,800 per year, residence, and other perquisites.

Hewlett-Packard introduces a smaller uncompromising calculator: the HP-21 Scientific.

\$125.00*

Now \$125.00 buys:

More power than our HP-35. 32 pre-programmed functions and operations vs. 22 for our HP-35. The HP-21 performs all log and trig functions, the latter in radians or degrees. It's our only calculator short of the HP-45 that lets you:

- convert polar to rectangular coordinates, and back again ($\rightarrow P, \rightarrow R$);
- do full register arithmetic ($M+$, $M-$, $M \times$, $M \div$);
- calculate a common antilog (10^x) with a single keystroke.

The HP-21 also performs all basic data manipulations ($1/x$, y^x , \sqrt{x} , π) and executes all pre-programmed functions in one second or less. In sum, it's designed to solve tomorrow's problems as well as today's.

Smaller size. 6 ounces vs. 9 ounces for our HP-35.

Full display formatting. The display key (DSP) lets you choose between fixed decimal and scientific notation and lets you control the num-

ber of places displayed. (The HP-21 always uses all 10 digits internally.)

If a number is too large or small for fixed decimal display, the HP-21 switches automatically to scientific. It never confuses a smaller number with zero.

Finally, if you give the HP-21 an impossible instruction, the Display spells E-r-r-o-r.

RPN logic system. Here's what this unique logic system means for you:

- You can evaluate any expression without copying parentheses, worrying about hierarchies or re-structuring beforehand.
- You can solve all problems your way—the way you now use when you use a slide rule.
- You solve all problems—no matter how complex—one step at a time. You never work with more than two numbers at once.
- You see all intermediate answers immediately. The HP-21 executes each function immediately after you press the function key.
- You can easily backtrack when you err. The HP-21 performs all operations sequentially.

- You can re-use numbers without re-entering them. The HP-21 becomes your scratch pad.

HP quality craftsmanship. One reason Nobel Prize winners, astronauts, conquerors of Everest, America's Cup navigators and over 500,000 other professionals own H-P calculators.

Your bookstore will give you a demonstration today. Challenge our new HP-21 with your problems. See for yourself how much performance \$125.00* can buy. If your bookstore doesn't have the HP-21 yet, call us at 800-538-7922 (in Calif. 800-662-9862) for the name of a dealer who does.

HEWLETT  PACKARD

Sales and service from 172 offices in 65 countries.
Dept. 658, 19310 Pruneridge Avenue, Cupertino, CA 95014

*Suggested retail price excluding applicable state and local taxes—Continental U.S.A., Alaska & Hawaii.
