

CSL to study lost tickets

The feasibility of establishing a committee to hear individual student cases concerning lost football tickets will be studied by a Council on Student Life (CSL) committee.

The study committee was formed Thursday in response to a student complaint and subsequent investigation into Athletic Dept.'s policy concerning issuance of replacement tickets for lost student tickets.

Jim Pittenger, UNL ticket manager, in talking with A.H. Bennett, CSL member, said that once a ticket is lost and there is no evidence that the ticket is no longer in circulation, he has neither the means or reason for issuing another ticket.

According to Bennett, Pittenger said student and faculty football tickets are non-negotiable and if they are lost, he must operate under the assumption that

the ticket still exists and therefore can be used.

Study committee members are Bob O'Neal, George Wolf and Leanne Merrill Logan.

In further action, CSL determined that the Housing Policy Committee (HPC), a CSL subcommittee, is to conduct a follow-up evaluation of the differentiated housing concept.

The housing concept, which started two years ago, allows residence hall students to determine under what conditions they want to live.

The evaluation will study acceptance by the participants, the shortcomings of the concept and improvements that should be made. Results will be reported to CSL.

CSL also approved ASUN student appointments to CSL subcommittees.

ASUN needs two appointments to the UNL Police Committee which ensures compliance with the codes of ethics in enforcement and advises Police Chief Gail Gade. For further information, contact the ASUN office.

The Chinese Student Association is sponsoring a Mid-Autumn Festival Sept. 20 and 21. The celebration will begin at 1 p.m., Sept. 20, at Holmes Lake. A showing of the Kung-Fu

film *Dragon Inn* will be in Sheldon Art Gallery at 7:30 p.m. and 10:30 p.m. The public is welcome.

The African Student Association will meet Saturday at 7 p.m. in the Nebraska Union.

A beer can drive to buy kidney dialysis equipment for St. Elizabeth Community Health Center is scheduled Sept. 20, sponsored by the Independent Order of Foresters. The

short stuff

drop sites are the Hinky Dinky stores at 25th and "O", 17th and South, 59th and Adams; Belmont Jack and Jill, and Madonna Care Center at 56th and South. Sites will be open from 8 a.m. to 8 p.m. Only all-aluminum cans are acceptable.

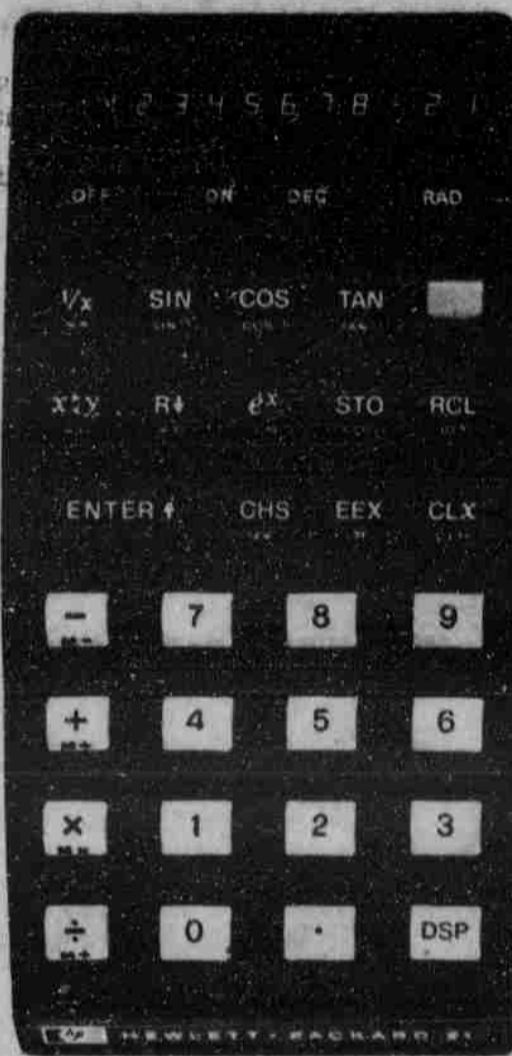

The Gay Action Group is sponsoring a dance Sunday night from 9 p.m. to midnight, at Commonplace, 333 N. 14th St.

Students interested in applying for the Fulbright-Hays Scholarship for graduate study abroad may pick up applications in Oldfather 1033. The deadline is Oct. 1.

The first annual British Empire Film Festival is scheduled for Sept. 23, 7:30 p.m., in Henzlik Hall.

Oct. 1 is deadline for application for degrees or certificates to be received at the end of first semester. Applications are at the Office of Registration and Records, Administration Bldg.

The uncompromising ones.

The Hewlett-Packard HP-21 Scientific \$125.00*

The Hewlett-Packard HP-25 Scientific Programmable \$195.00*

The calculations you face require no less.

Today, even so-called "non-technical" courses (psych, soc, bus ad, to name 3) require a variety of technical calculations—complicated calculations that become a whole lot easier when you have a powerful pocket calculator.

Not surprisingly, there are quite a few such calculators around, but ours stand apart, and ahead. We started it all when we introduced the world's first scientific pocket calculator back in 1972, and we've shown the way ever since.

The calculators you see here are our newest, the first of our second generation. Both offer you technology you probably won't find in competitive calculators for some time to come, if ever.

Our HP-21 performs all arithmetic, log and trig calculations, including rectangular/polar conversions and common antilog evaluations.

Its display is fully-formatted, so you can choose between fixed decimal and scientific notation.

Our HP-25 does all that—and much, much more. It's programmable, which means it can solve automatically the countless repetitive problems every science and engineering student faces.

With an HP-25, you enter the keystrokes necessary to solve the problem only once. Thereafter, you just enter the variables and press the Run/Stop key for an almost instant answer accurate to 10 digits.

Before you invest in a lesser machine, by all means do two things: ask your instructors about the calculations their courses require; and see for yourself how effortlessly our calculators handle them.

Both the HP-21 and HP-25 are almost certainly on display at your bookstore. If not, call us, toll-free, at 800-538-7922 (in Calif. 800-662-9862) for the name of an HP dealer near you.

HEWLETT **hp** PACKARD

Sales and service from 172 offices in 65 countries. Dept. 658B, 19310 Pruneridge Avenue, Cupertino, CA 95014
