

Home Cookin'

Now's the time to add to your music system... or even start from scratch! All at great savings!

When the music really starts to cook, maybe your home music system isn't cookin' like it should. The problem could be your ingredients. A sour turntable or a bitter twist of tape can ruin the most ravenous appetite for music. That's why at TEAM we carry only the finest ingredients. Ingredients we're certain will perform exceptionally well for our customers for a long time. Whether you're starting a music system from scratch or adding to your present system, drop by TEAM for some tasteful listening. We've got the makin's for some mighty good cookin'. Here's a sampling.

HEARTY INGREDIENTS

A dash of this.

BIC 940 Multiple Play Manual Turntable
The BIC 940 has a low-mass tone arm which incorporates stylus tracking force and adjustment in the isolated counterweight. Anti-skating is adjusted by a knob on the program panel. The tone arm is the equal of the most sophisticated available. It will track any cartridge, CD-4 included at the lowest setting recommended by the manufacturer. Cueing is viscous damped up and down. It is designed to function with as fine a system as you choose to assemble and yet is priced modestly enough to be a logical choice for any system being put together on a strict budget.
