Faculty Club's rolls declining, closing is hinted

By Virginia Broady

The UNL Faculty Club may have to close if its membership does not increase, said W. E. Kuhn, a UNL economics professor and club president.

At the Faculty Club, a luncheon club in the Faculty Bldg. at 1520 R St., faculty members and permanent university employes can get inexpensive meals whether or not they are Faculty Club members.

The club is suffering an income loss because of a membership decrease, Kuhn said. Also, unused building space, previously rented to the Pi Kappa Alpha fraternity, now is occupied by the Alumni Association which pays no rent to the Faculty Club because the building is university-owned, he said.

Deficit operation

The Faculty Club now is operating on a \$1,700 a year deficit, Kuhn said. It is covering the deficit with money saved from past profits and probably could operate for two more years at its present rate, he said.

According to Raymond Dein, a former faculty member and current Faculty Club treasurer, all of the club's income is from membership dues and its luncheon operation.

Membership dues, which are \$17 annually for assistant professors and \$21 yearly for associate and full professors, are used to help cover operating expenses, Dein said.

UNL Faculty Club members enjoy a meal in the Faculty Bldg., at 1520 R St. The club may have to close its doors because of a lack of funds.

Administration members pay one of the two fees, depending on their status.

Kuhn added that the club, which now has about 200 members, must double its membership to meet expenses.

Many non-members

"Many non-members use the club, indicating that they think it is valuable," he said.

"The one-meal operation has to be subsidized. Otherwise no one could afford to eat at the club," Dein said.

In an effort to increase membership, the club has changed policies this year, he said. Club members used to receive a 10 per cent discount on lunches and non-members payed the regular price. Now a 10 per cent service charge is being added to a non-member's lunch bill. Members will pay regular prices, Kuhn said. The added cost may induce non-members to join, he added.

The club also has asked, through an announcement in Bulletin Board, a faculty new-bulletin, for persons to support Faculty Club by joining, Kuhn said.

Intangible assets

"The Faculty Club has many intangible assets which make it attractive," he added. "It is convenient for meetings and lunch and has a good atmosphere for entertaining important guests."

Dein, who said he joined the club when it opened in the early 1950s, said the club has given professors in different departments and colleges opportunity to become acquainted.

Dein said most universities have a faculty club. Many of these clubs have received large donations from alumni. The UNL Faculty Club has not been so fortunate, Dein said.
