

DON'T FORGET!

— AVOID THE RUSH —

Early Register for the 1976 SUMMER SESSIONS

**MARCH 15—APRIL 2
NO DEPOSIT REQUIRED!**

- *PRE-SESSION—
May 17 - June 4
- *8-WEEK SESSION—
May 17 - July 9
- *FIRST SESSION—
June 7 - July 9
- *SECOND SESSION—
July 12 - August 13

A new career for college graduates. . .

Consider your opportunities as a
LAWYER'S ASSISTANT

You may qualify for this intensive, 12 week, post-graduate course offered by the **UNIVERSITY OF SAN DIEGO** in cooperation with the National Center for Paralegal Training.

By specializing in one of the following fields—Corporations; Litigation; Estates, Trusts, and Wills; Public Service Law; Real Estate and Mortgages—you can prepare yourself for a responsible position as a skilled member of the legal team.

Applications are now being accepted for
Summer, 1976 Fall, 1976 Spring, 1977

For Free Brochure—and information regarding application procedures, program dates, financial aid, employment opportunities—contact:

**LAWYER'S ASSISTANT PROGRAM
UNIVERSITY OF SAN DIEGO**
Alcalá Park
San Diego, CA 92110
(714) 291-6180 Ext. 247

It is exasperating to be called so persistently when the last thing we want to do is to get up and go but God elects to keep on haunting like some holy ghost.

MISSIONHURST

... A community of Catholic priests and brothers ministering to God's people in Asia, Africa and Latin America. Are YOU willing to help us share the Good News of salvation with these people? Send for free brochure:

A Man For Others--
A Foreign Missionary Priest

That's what a Columban Father is. He's a man who cares...and a man who shares...a man who reaches out to missions in Asia and Latin America...to share the Good News that Jesus truly cares for them. He's a man who commits his life totally to others so they can live their lives as God intended. Being a

COLUMBAN FATHER

is a tough challenge...but if you think you have what it takes and are a Catholic young man, 17 to 26, write today for our

FREE 16-Page Booklet

Columban Fathers
St. Columbans, NE 68056 **DM**

I am interested in becoming a Catholic Missionary Priest. Please send me your booklet.

Quality you can trust...

Texas Instruments electronic calculators.

More math power for your money

You need math power, no matter what your major. And TI puts more math power at your fingertips more economically.

How can TI give you greater value? The answer lies beneath the keyboard. There, major technological advances have achieved greater and greater power at lower and lower costs.

Why TI calculators are quick and easy to use.

All TI calculators described here use algebraic entry. This allows you to key-in a problem just as you would state it...in the same natural manner in which you think. No system is easier to master.

TI-1200 and TI-1250...
real quality in low-cost calculators with replaceable batteries.

The TI-1200 gives you percentages at the touch of a key, has an automatic constant in the four basic functions for performing repetitive calculations, full floating decimal, and 8-digit display. You can carry it to class or lab in pocket, purse, or briefcase...\$12.95*. (AC adapter optional.)

The TI-1250 does everything the TI-1200 does—plus a full-function, four-key memory. You also get a change-sign key...all for \$18.95*. (AC adapter optional.)

TI-2550-II...
a versatile powerhouse with memory.

This eight-ounce, 8-digit portable does percentages automatically, and has a four-key memory system.

Science keys, too. Reciprocals, squares, square roots, and a reverse to invert fractions and recall next-to-last entry. Automatic constant in all four basic functions and a two-place or full-floating decimal. Rechargeable batteries and AC...\$49.95*.

TI-1500...
great looks, great performance. And it's rechargeable.

A crisply styled portable with percent key, full-floating decimal, automatic constant in the four basic functions, and an easy-to-read 8-digit display.

The TI-1500 slips neatly into pocket or purse, operates on rechargeable batteries and AC...\$29.95*.

SR-16-I...
multifunction scientific calculator.

This portable wizard will not only whip through mere arithmetic but also through complex technical problems. Solves sum-of-products or quotient-of-sums without re-entering intermediate results or rewriting the problem for sequential operation.

SR-50A and SR-51A...
slide-rule calculators.

The SR-50A solves complex scientific calculations as easily as simple arithmetic. Algebraic entry system with sum-of-products capability.

The SR-50A performs all classical slide-rule calculations—roots, powers, reciprocals, factorials, common and natural logarithms and their inverses, trigonometric (sin, cos, tan) and hyperbolic (sinh, cosh, tanh) functions and their inverses—all in full-floating decimal point or in scientific notation. The versatile electronic memory allows data to be stored and retrieved or added to memory...\$79.95*.

The SR-51A performs all classical slide-rule functions, then goes on to statistical functions. Such as mean, variance, and standard deviation. Factorials, permutations, slope and intercept. Trend line analysis. And there is a random number generator as well as 20 preprogrammed conversions and inverses. The SR-51A allows decimal selection of from 0 to 8 places and has three user-accessible memories...\$119.95*.

A lasting investment in the future, a TI calculator will not only serve you well as you work toward your degree...but will stay with you as you pursue your career. See them wherever quality calculators are sold.
