FRESHMEN & SOPHOMORES

This semester you can still try something impossible.

Many young men and women say they are going to college for the challenge.

But it's tough to test yourself and find out what you can do just by taking quizzes and finals.

Add Army ROTC to your program and you'll automatically challenge both your physical and mental skills.

Unlike strictly academic subjects, Army ROTC will teach you to think on your feet. To make important decisions quickly. And it will help you to develop your confidence and stamina. One semester, at a time; 2 hours a week. No obligation during first two years (MSI & MSII).

In short, you can prepare yourself to handle the impossible, on campus or off.
