

You and your Minolta.

Pick up your Minolta and look through the finder. Are you looking out? Or into your own mind? You see an image floating in space. Click. Did you capture it, or create it? Something in you knows and responds. Your Minolta responds with you.

A Minolta SR-T is so natural in your hands it feels like a part of you. Everything works so smoothly. You never have to look away from the total information finder to make adjustments. The image is always big and bright, right up to the instant you shoot. And patented "CLC" through-the-lens metering assures you of accurate exposures, even in high contrast situations.

You're free to explore the limits of photography with a Minolta SR-T. Over 40 superbly crafted Rokkor-X and Minolta/Cellic lenses let you stretch your imagination from "fisheye" wide-angle to super-telephoto.

Three models, the SR-T202, SR-T201 and SR-T200 provide quick match-needle exposure measurement, shutter speeds to 1/1000th of a second and traditionally effortless Minolta handling. Plus a wide range of creative and convenience features to match your needs and budget. The right one is at your Minolta dealer. Waiting for you. For literature, write Minolta Corporation, 101 Williams Drive, Ramsey, N.J. 07446. In Canada: Anglophoto Ltd., P.Q.

After people try a Land & Sky waterbed they take it seriously.

In fact they become our best advertising. Telling their friends about the great comfort, the quality and durability of our mattresses.

They've discovered a beautiful, new feeling to sleep comfort. You can too.

You'll find fluid support as natural to your body as your skin, conforming to every curve. There's

concealed support for your neck, shoulders, the small of your back, knees and heels. Consistent, gentle support that offers better circulation, less tossing and turning, and pure relaxation.

Ask a friend who has one of our flotation systems. Then come see us for a serious discussion of fluid support benefits.
