

Magee's

LINCOLN CENTER GATEWAY

Neat New Knits by a neat new designer, Three Feet Off.

Frankly, we haven't the foggiest idea why this label calls itself "Three Feet Off". All we know is that here's a brand new look in light-weight, airy knits, done up in bold stripes on an off-white background. Both styles pictured come in small, medium and large sizes. And both are in our new Junior Shop on Third Floor at 12th and O and, of course, at Magee's Gateway. Do come see them soon.

Top: V-neck, cap sleeve knit with tie belt. \$15. (Shown worn over a cowl neck long-sleeved top, \$11.)

Bottom: Long full sleeves, boat neckline, draw-string waist. \$22.

Magee's Lincoln Center:
10 a.m. to 5:30 p.m.; Thursday 'til 9.

Magee's Gateway:
10 a.m. to 9 p.m.; Tuesday,

Saturday 'til 6; Sunday 1 p.m. to 5.

Building bridges

Mexico City—President Jose Lopez Portillo of Mexico says he is willing to serve as a bridge-builder to help the United States improve its relations with the rest of Latin America. "It would give me great pleasure to be a vehicle for harmony," he said in an interview with The Associated Press. Portillo, who is scheduled to meet with President Carter in Washington next month, also indicated a willingness to assist the United States in resolving its disputes with Panama and Cuba.

Carter's way 'best'

Washington—President Carter told Democratic congressional leaders today that his is "the best way" to perk up the economy, and asked them to act swiftly on his package of tax rebates and limited public works spending. He also sought early action on his request for authority to reorganize federal agencies subject to congressional veto. He asked for emergency legislation to cope with what he called "a very serious problem with natural gas."

Kelley to retire

Washington—Clarence Kelley intends to retire next

Jan. 1 as director of the FBI the Senate was informed Tuesday. Sen. John Danforth, R-Mo., said during debate on the nomination of Atty. Gen.-designate Griffin Bell that Kelley wrote him of the decision on Monday. "I have concluded that the letter is a voluntary act on his (Kelley's) part and does reflect what he wants to do with his life and is not in response to pressure from Attorney General-designate Bell or anyone else," Danforth said. After reading Kelley's letter and talking to him, Danforth said, he has decided to vote for Bell.

If you've been thinking about getting a programmable, Texas Instruments has a special offer for you

NOW.

SR-56 \$109.95*

If you want an incredible slide rule calculator that's also programmable, then this is the one for you.

There're 74 preprogrammed functions and operations. And it has AOS, TI's unique algebraic operating system, the underlying reason an SR-56 is so powerful. It'll let you handle problems with as many as 9 sets of parentheses. Talk about memory. An SR-56 has 10 (11 if you count the T-registered.). And you can do arithmetic with all of them.

Chances are you'll soon discover how really easy it is to program. An SR-56 has 100 steps. Six logical decision functions. Four levels of subroutines. Decrement and skip on zero. Compare a test register with the display to make a conditional branch. And this is just the beginning.

Think about it. Can you really afford to put off getting your SR-56, now?

SR-52 \$299.95*

If you want the computer-like power of a card programmable then choose this one.

Techniques like optimization, iteration, data reduction, what-if matrices, mathematical modeling, need not tie up your mind—or your time.

But learning to use it is a hassle, you say. Not true. Pre-recorded programs are gathered into software libraries: Electrical Engineering, Math, Statistics, Finance. All you need do is load a mag card, press a few keys and you'll get answers that previously required a computer.

You can make your own programs just as easily. In just a couple of hours you'll begin to prove what a powerful asset you have—right at your fingertips.

And there's not a better time to get an SR-52 than right now.

Texas Instruments will rebate \$10.00 of your original SR-56 purchase price when you: (1) return this completed coupon including serial number (2) along with your completed SR-56 customer information card (punched in box) and (3) a dated copy of proof of your purchase, verifying purchase between Jan. 1 and March 31, 1977.
