

# Winterim flights program offers enticing study alternative

If the start of another semester at UNL does not sound like the most enticing idea, start saving your dollars and register for a winterim flight and study program in Europe.

Applications currently are being accepted for the seventh annual Winterim Flight and Study Tours program, according to Evelyn Jacobson, assistant coordinator of International Educational Services.

"Only 40 students are registered in courses," Jacobson said, adding there are 200 seats available, on the charter flight that leaves Lincoln December 27.

Jacobson urged interested students to register as soon as possible, because the flight usually is filled by October.

Students can earn three hours credit through the program, or can take the charter to Europe strictly for traveling purposes.

Round-trip airfare from Lincoln to both London and Zurich and from Paris to London back to Lincoln is \$354, Jacobson said. Prices for credit courses vary depending on the class taken, Jacobson said, but usually range from \$600 to \$800.

Undergraduate and graduate courses are being offered

in England, Spain, Germany, France, Switzerland and Italy. Fifteen departments have designed three credit hour courses for the winterim period. They include Spanish, German, French, economics, law, education, English, philosophy, life sciences, engineering, journalism, architecture, business administration, agronomy and anthropology.

Applications and further information are available in the Flight and Study Tours Office, 345 Nebraska Union, 472-3265 or 472-3266. Jacobson said an application form complete with an instructor's signature and a \$100 deposit are necessary for course registration. The \$100 also is required for flight-only reservations.

## Birkenstock®

Feet in the sand make footprints. Feet in Birkenstock footwear do the very same thing.

The Birkenstock footbed is heat and pressure sensitive, to mold to your foot, and become your footprint.

So walking in Birkenstock is a lot like walking barefoot in the sand, with one very convenient difference.

You can walk in Birkenstock all year long.

Let your feet make a place for themselves.
