To you, "daily" exercise means every day

You enjoy keeping fit. It's good fun and good sense. You don't let your period stop you, either. Because you use Tampax tampons.

Since they're worn internally, you don't worry about chafing or bulges. They're easy to use, too. (All the instructions you need are right in the package.) But, most important, Tampax tampons are uniquely designed to expand so they conform to individual body contours. Which means there's far less chance of an accident.

No wonder you'd never consider any other form of feminine protection. And no wonder you're in such wonderful shape.

The internal protection more women trust
