

University News Briefs

Registration

Students who pre-registered for fall classes must return registration forms by Aug. 16.

Students who wish to withdraw from school must apply for a refund of class reservation deposits by Aug. 16.

General registration for the fall semester is Aug. 23, 24, and 25.

First semester classes begin Aug. 28.

Degree deadline

The final date of oral exams for advanced degrees in second session is Aug. 11. The final date that candidates for advanced degrees can deposit theses and file final report sheets is Aug. 16.

Daily Nebraskan

This is the final 1978 issue of the Summer Nebraskan. The Daily Nebraskan begins publication Aug. 24.

Gubernatorial debates

The second debate between gubernatorial candidates, Democrat Lt. Gov. Gerald Whelan and Republican Congressman Charles Thone will be Aug. 11 in Hemingford. They will debate agricultural issues.

Junior Olympics

The AAU-Sears National Junior Olympic Multi-Sport Championships begin at UN-L Aug. 11.

Tuition hike approved

Continued from page 1

The 1979-80 proposed operating budget request for state-aided programs totalled \$182,258,629, compared to \$175 million for 1978-79. Non state-aided programs totalled \$110 million in the 1978-79 proposed operating budget and will be increased about eight percent for 1979-80.

Regents Robert Prokop of Papillion and Robert Simmons of Scottsbluff opposed the budget proposals. Prokop

said the tuition increase would not generate more funds because the increase would force students to take fewer hours during the year.

"You have to look at the total number of hours. If there is a decrease in credit hour production there will be less cash available," Prokop said.

Simmons rejected the budget proposals because no provisions were made for university improvement.

Energy Workshop at UN-L

Thirty Nebraska secondary school teachers are participating in a energy education development program at UN-L until Aug. 18.

The three-week workshop includes lectures, discussions, field trips and preparation of materials for teaching how the energy crisis affects Nebraskans.

The teachers will use the prepared materials on a pilot basis in Nebraska junior and senior high schools next year. If the pilot projects are successful, the curriculum may be expanded statewide

in ensuing years.

The program is financed by a \$19,000 grant from the U.S. Department of Energy and funds from the Nebraska State Energy Office.

Program Director Donald W. McCurdy, UN-L professor of secondary education, says the program will use University expertise in engineering and technology as well as the social and physical sciences. "The economic and political factors are as important in the energy field as the technical ones," he said.

Spending lid debated

Proposed amendments to the Nebraska constitution will be debated in a five-part series starting next week on the Nebraska Educational Television Network.

The proposed spending limit on local government will be debated on "Ballot Issues '78", Aug. 8 at 7 p.m. The proposed mandatory deposit on beverage containers will be debated Aug. 9 at 7 p.m. Both proposals will be placed on the November ballot for a decision by Nebraska voters.

Summer Nebraskan

The Summer Nebraskan is published weekly by the University of Nebraska-Lincoln School of Journalism during eight weeks of the summer sessions. Summer Nebraskan office is 112 Avery Hall, City Campus. Telephone 472-3210.
