

ASUN agenda

- August 30, 1978, 7:00 p.m. Nebraska East Union.
- I. Call to Order/Roll Call
- II. Approval of Minutes
- III. Appointments
- IV. Open Forum
- V. Executive Reports
- VI. Committee Reports
 - Academic Policy
 - Budget & Fees
 - Campus Life
 - Special Topics
 - Community Relations
 - Constitutions
 - Internal Affairs
- VII. Old Business
 - Appropriations Bill No. 7
 - Amendment to Organic Act No. 11
 - Senate Bill No. 9 (Community Relations)
 - Senate Bill No. 10 (ASUN Credit Union)
 - Senate Bill No. 12 (ASUN Advisor)
 - Senate Bill No. 13 (Off-Campus Carpooling)
 - Senate Bill No. 14 (ASUN Van Disposition)
 - Senate Bill No. 15 (Discount Coupon Books)
 - Senate Bill No. 16 (New Logo and letterhead)
 - Senate Bill No. 17 (NSA*NSL Convention)
 - Resolution No. 10 (Tuition Increase)
 - Resolution No. 11 (Migration Game)
 - VIII. New Business
 - Senate Bill No. 18 (ASUN-NUPIRG Tenant Service)
 - Appropriations Bill No. 8
 - IX. Announcements
 - X. Adjournment

Prices up at the Crib

If the price of your hamburger from the Crib seems much higher this year, don't be too upset. At least it's size hasn't decreased.

"I've tried to stay away from cutting servings," said union food service manager Bob Richeson. It's been several years since serving sizes were decreased, he said.

Food, however, has increased drastically in price over the last year, especially beef, chocolate and milk, Richeson said.

The minimum price of milk is fixed by the government, he explained, and over the past two or three years, the government has raised the minimum.

Beef, however, is the main culprit. Richeson estimates the price of ground beef has risen 24 percent in the last six months.

As a result of these rising prices, as well as labor costs and general inflation, union food prices have had to be increased.

And, there are some foods you won't see around the union any more, according to Richeson. Lamb, for example, "has priced itself right out of the market," he said.

HEWLETT-PACKARD INTRODUCES PROFESSIONAL SCIENTIFIC CALCULATORS FOR A STUDENT'S BUDGET.

THE PRICE OF EXCELLENCE NOW STARTS AT \$60*

Now you can get the same quality, durability and many of the features found in Hewlett-Packard's professional calculators—at a price you can afford. Introducing Series E for science.

DESIGNED FOR STUDENTS.

Easy-to-read displays. Larger, brighter LED display with commas to separate thousands, easier on the eyes during those long hours of study.

Built-in diagnostic systems.

You'll now be working on many new challenging problems—that's why Series E has diagnostic systems that tell you:

- 1) when you've

performed an incorrect operation; 2) why it was incorrect; 3) if the calculator isn't working properly.

Accuracy. Improved algorithms give you confidence that your answers are more precise and complete.

FROM BASIC SCIENCE TO ADVANCED PROGRAMMABLE.

The HP-31E—Scientific, \$60* Trigonometric, exponential and math functions. Metric conversion. Fixed and scientific display modes. Full 10-digit display. 4 separate user memories. Now \$59.90

The HP-32E—Advanced Scientific with Statistics, \$80* All HP-31E functions plus hyperbolic and comprehensive statistics. More math and metric capabilities. Decimal degree conversions. ENG, SCI and FIX display modes. 15 user memories. Now \$79.90

The HP-33E—Programmable Scientific, \$100* Scientific, math and statistics with programmability. Editing, control and conditional keys. 49 lines of fully merged key codes. 8 user memories. Now \$99.90

HEWLETT-PACKARD IS WITHOUT EQUAL.

All Series E calculators use RPN logic exclusively.

If you've never tried it, you're in for a big surprise. It lets you solve problems

the way you naturally do in your mind. Straightforward.

Logical. No worrying about complicated hierarchies or parentheses. RPN is the shortest possible distance between the question and the answer.

SEE FOR YOURSELF.

To help you select the calculator that's right for you, we've prepared a booklet entitled, "The Student's Choice...the Logical Choice." Pick up a copy at your bookstore.

When you stop by your dealer to see Series E, be sure to see our other professional calculators: the advanced programmable HP-29C and HP-19C with printer; and the HP-67 mag-card programmable.

But do it soon. A Hewlett-Packard professional calculator priced for a student's budget is something you can't afford to pass up.

HEWLETT  PACKARD

*Suggested retail price excluding applicable state and local taxes—Continental U.S.A., Alaska & Hawaii.

The HP-21 Scientific Pocket Calculator from Hewlett-Packard. \$59.95.

The only calculator in its price range that gives you all basic log, trig and exponential functions. *plus:* rectangular/polar conversions, full register arithmetic, two trig operating modes, full display formatting, and HP's error-saving RPN logic system.

NOW 49.95

WHILE QUANTITIES LAST

THE HP MAN WILL BE HERE TOMORROW.

Stop in tomorrow between 9 and 4 and meet Dave Wand, a Hewlett-Packard factory representative. Dave will be demonstrating the five new Series E calculators from Hewlett-Packard...the best calculators in the world.

Open 8-5, Monday - Saturday
