

letters

We regret to inform you that the response to our first communique has been astounding. To tell the truth, I was quite pleasantly surprised to find out just how many clones there actually are on earth. You see, my presence on the "CIF" scene has been fairly recent:

I happened upon a clang of clones purely by chance one day, and, as social intercourse reluctantly leads to further understanding of the world around us, I learned of the plight of the clones.

It seems that, a few thousand years ago, a bunch of aliens were experimenting with producing the ultimate robot, which they were going to use as customized slaves and became millionaires on their planets by selling them to all of the lazy aliens in the galaxy.

Naturally, the earlier experiments produced a few "duds" The aliens, being compassionate to a fault, deposited these reject robots on a planet called earth—rather than recycling them.

Now, these aliens were aware that they couldn't just introduce a species to an environment without first categorizing and labeling them, so they did both at once with the acronym of CLONE (Can't Liberate Our Name Easily). The aliens thought this was hilariously ambiguous. WE DONT.

Incidentally, this communique was supposed to have been the first one and the first one should have been the third one and . . . well, even clones make mistakes.

Anyway, to make it brief, I am in the process of delving through the clones' written history in an attempt to ascertain just who the world's first clone actually was. We are not as of yet sure if there were any human forms on this planet when the first clone landed; if not, then we are all clones. If so, then you humans are going to have a small problem with the CLONE INVASION FORCES.

In lieu of hard facts concerning who are clones and who are not, we are still requesting that all clones (and high humans in important places) enlist in the "CIF."

After all, whose side would you rather be on when the invasion starts. Send your name and address today to:
Clone Invasion Forces

CLONE INVASION FORCES

Humor questioned

The UNL campus abounds with humorous material for a comic strip, but none seems to find its way into *Stuf*.

Whatever happened to the caliber of wit and satire displayed by Ron Wheeler in *Ralph?* Steve Ehlers' character who was "flunked out for not partying," and similar attempts at mirth have been pathetically sophomoric.

As Pat Oliphant, Ron Wheeler, and Garry Trudeau have demonstrated, cartoons for adults can be very enjoyable. How about it D.N.?
