Monthly payment based on 100% financing with approved credit

The **JVC JRS201** has a power output of 35 watts per channel minimum, RMS, both channels driven into 8 ohms. 20-20 KHz with no more than 0.03% THD. The JVC incorporates a DC power amplifier which can amplify much lower frequencies than conventional amplifiers. The sounds that you do hear are cleaner. The JRS201 offers a full graphic equalizer built in so you can compensate in five different "tone zones" for poor room acoustics, sluggish speaker response, etc. There are endless advantages to a graphic equalizer. The JRS201 has an advanced tuner circuitry to make both the AM and FM reception sensitive and free of noise.

The **JVC JLA20**. This dependable auto-return belt drive turntable uses a JVC 4-pole synchronous motor for silent operation. An oil damped tonearm is used. Impressive specifications of wow and flutter less than 0.06% (WRMS) and signal to noise ratio better than 63 dB (Din-B).

**JVC SK500** 2-way bass reflex system features a "wide range cone tweeter" that gives excellent high frequency response. The woofer employs a hard diaphragm for increased rigidity and flexibility to reproduce the midrange as well as bass with musical quality. Both are designed to reproduce the loudest passages without trace of coloration or distortion. An ideal speaker for this system.

**ADC QLM 36 Mk III** cartridge features an innovative Diasa elliptical tip, resulting in an excellent frequency response and wide separation and unbelievable sound. Tracking force of 3/4 to 1 1/2 grams and frequency response of 15Hz to 22 KHz ±2dB.

**"Free for four"**  
**Maxell tape offer**  
**sale 9.99**

Buy four of the new formulation LN C 90 cassette tapes at this special low price, and Maxell will give you this deluxe 12-tape storage case. Take advantage of this offer by Maxell, enjoy tapes that give you a better response, more quality 4 tapes, reg. 12.36

**Bonus offer! Free with this system!**
