## Stereo Accessories

Under \$60.

Sweaters and coats are *nice* for Christmas presents, but for the same money, you can have stereo accessories. All it takes is a subtle hint repeatedly dropped, or for the pragmatic family, a Christmas list or this ad left lying around.

Do your family and friends a favor this year—give them some help. Tell them about Stereo Studio. They'll appreciate the opportunity to give you something you

really want.

Stereo Studio has gift ideas for the low budget younger brother or sister, too. Like a full line of record care accessories, starting at \$5 and going to \$20 for a deluxe kit.

Give your gift givers a helping hand this Christmas. And when you shop for *them*, come to Stereo Studio.

*Come a Little Closer to the Music*
