**Canon AT-1**

For photographers wanting an up-to-the-minute definition of a superior multi-range exposure metering SLR, the AT-1 is the best currently. Like the AT-1, its successor, the AT-1 offers exceptionally compact design and light weight and uses the same "A" series of accessories (Power Winder A, Speedlite 18A and Datascope A) with easy handling and top class electronic features. Includes all Canon lenses and many Canon accessories for almost unlimited photographic versatility.

Sale Price \$279.95

**Canon A35F**

If you know the name Canon, you know that when we make a camera, it's better. The new A35F is not only capable of superior pictures with its sharp Canon lens, but it has a built-in pop-up electronic flash. By day your exposures are automatically perfect. And by night you just pop up the flash for outstanding results. Even outdoors, for fill-in flash, your flash is automatic.

Sale Price \$124.95

**The compact, automatic Minolta XG-7.**

With all its exclusive features, the Minolta XG-7 35mm SLR gives you much more than point-focus-shoot automation. The optional Auto Winder G and Auto Electroflash 280A can continuously synchronize for automatic flash sequences at about two pictures a second. A touch of the shutter button turns on the electronic finder display. There's a flash-ready signal in the viewfinder. A flashing electronic self-timer. And over-exposure prevention. Come in and see how easy the Minolta XG-7 is to own.

**FORGET MEMORY. BUT REMEMBER TO COME IN AND SEE WHY.**

**OLYMPUS OM-2**

Memory is a thing of the past with the Olympus OM-2. That's because unlike other automatic SLR cameras that "remember" exposure information just before taking a photo, the OM-2 has a unique metering system that measures light directly at the film plane, during the actual exposure.

**A fine 35mm SLR doesn't have to be expensive.**

Look into the Minolta SR-T 303. You'll see why you can't find a 35mm SLR for features, fast handling and solid value.

RETAIL \$346.00  
Sale Price \$229.95

**Canon A-1**

There's never been a camera like the automatic electronic A-1 from Canon. It puts an end to arguments about which exposure method is best for you because it has them all and then some. Plus unique control and performance features you'll have to experience to believe. And a complete line of Canon A Series accessories for total electronic versatility.

RETAIL \$639.00  
Sale Price \$469.95

**Canon Canonet 28**

Quality snapshots are the key note of the Canonet 28. Before you think about an instant loading 126 or pocketable camera, think about this. The larger negative size gives you truly sharper pictures—that's a fact. Not only this, you get shooting capacity up to 36 exposures on 35mm film—all completely automatically with the 28's sensitive auto electronic eye. Rangefinder focusing further insures pinpoint focus for any subject and with the Canonet D Electronic Flash unit, even your flash is perfectly automatic.

**Konica Autoreflex TC**

A remarkable price breakthrough by Konica now makes it possible for anyone to afford a fully automatic, full feature single lens reflex that's part of the total Konica Autoreflex System. Features like a sophisticated Capul shutter with speeds to 1/1000 sec., Konica bayonet lens mount and a choice of over 30 Konica lenses, "control center" viewfinder and a host of other professional features. All in a camera that's 25% lighter and smaller than others, and yet has exposure, 8, today, to believe it possible!

**World's smallest full-frame 35mm camera.**

The Minolta 35 SLR slips into your pocket as easily as a pack of cigarettes. And it weighs only seven ounces. It has fully automatic exposure. You set the aperture, the camera sets the shutter speed ranging from 1/500 to 30 seconds. This camera will do almost anything a 35mm with a wide-angle lens will do. But it's small enough to be in your pocket when that once-in-a-lifetime photographic opportunity occurs.

RETAIL \$300.00  
Sale Price \$189.95

**Canonet G-III 17**

This handsome, compact 35mm camera gives you mistake-proof exposure control whether you shoot in brilliant sunlight or in the gloom of night with addition of the superb Canonet D electronic flash. All you do is focus, while the Canonet G-III 17 automatically adjusts the camera to the correct aperture. Specially designed lenses made for great color, plus Canon's unique QL (Quick Loading) for fast film changing, and all information visible in the bright viewfinder make this an outstanding camera value.
