

Why did Kenwood move to Team?

60 Watts Per Channel KA-7100 Integrated Amplifier provides 60 watts per channel min. RMS, both channels driven at 8 ohms from 20Hz to 20kHz with no more than 0.02% total harmonic distortion. With DC power amplifier, dual power supplies 2 tape deck capability and more

\$249 Regularly \$345

More For Your Dollar KT-5500 AM FM Stereo Tuner with FM automatic muting in the stereo mode to eliminate between-station noise when tuning. Other features include twin tuning meters—one for AM FM signal strength, the other for FM center-of-tuning plus easy-to-read tuning scale. At a great price!

\$119 Regularly \$175

A Very Special Buy! KD-1033 Manual Turntable is a perfect complement to a fine stereo system. Features include viscous-damped cueing, anti-skate control, 12-inch zinc alloy die-cast platter, simulated wood-grain finish base and dust cover. Cartridge not included.

Regularly \$110 **\$69**

A Great Price! KX-530 Cassette Deck with all the most wanted features including front load, Dolby noise reduction system with automatic MPX filter, 2-position bias and equalization controls, expanded scale VU meters, tape counter with automatic reset and full auto shut-off in all modes. A great performer at a beautiful price!

\$169 Regularly \$225

40 Watts Per Channel KR-4070 AM FM Stereo Receiver gives you 40 watts per channel min. RMS, both channels driven at 8 ohms from 20Hz to 20kHz with no more than 0.05% total harmonic distortion. A no-nonsense, high performance receiver at a super price. Features twin tuning meters—for AM FM signal strength and FM center-of-tuning, loudness compensation, tape monitor, center-of-tone controls and phase-locked loop (PLL) in FM multiplex for improved stereo separation.

\$219 Regularly \$345

Kenwood's Finest Receiver KR-9600 AM FM Stereo Receiver kicks out a big 160 watts of power per channel min. RMS, both channels driven at 8 ohms from 20 Hz to 20 kHz with no more than 0.08% total harmonic distortion. An array of features include FM Dolby de-emphasis switch, triple tone controls with defeat, dual power supplies to end crosstalk distortion, 2 tape deck capability with intertape dubbing and tape-through circuit, phase locked loop (PLL) in FM multiplex for improved stereo separation, twin tuning meters and 2 power meters.

\$499 Regularly \$775

Direct-Drive, KD-3070 Semi-automatic Turntable offers you the convenience of automatic tonearm return and shut-off with the reliability of direct drive. A resin concrete and particle board base virtually eliminates feedback and vibration noise. Other features include built-in stroboscope with speed control and heavy 12-inch aluminum alloy die-cast platter, two-way viscous-damped cueing, anti-skate control, base and dust cover. Cartridge not included. At a hard-to-believe price!

\$159 Regularly \$210

40 Watts Per Channel, KA-5700 Integrated Stereo Amplifier with 40 watts per channel min. RMS, both channels driven at 8 ohms from 20Hz to 20kHz with no more than 0.04% total harmonic distortion. The KA-5700 Amp has all the features necessary for smooth, flexible operation with 2 tape deck capability, tape-through circuit for inter-dubbing while listening to another source. Other features include loudness contour, 41-step click stop volume control, direct coupled design for clean, well-defined sound.

\$189 Regularly \$229.95

3-Head Cassette Deck, KX-1030 3-Head Cassette Deck delivers performance unique in its price range. Features include Double Dolby noise reduction circuits, 3-position equalization and bias controls and continuously variable bias adjustment for best performance from every tape type.

\$349 Regularly \$449.95

A Great Match, KT-7500 AM FM Stereo Tuner with twin tuning meters—one for AM FM signal strength the other for FM center of tuning. Other features include FM Dolby de-emphasis switch, wide and narrow IF band switch for optimum reception and output level control. Superior AM FM Stereo reception. A great match for the KA-7100 amplifier.

\$249 Regularly \$340
