In the year 2000 Neb. still 'a good place to live'

In the year 2000, Nebraska's high quality of life will still be high in comparison to other states, according to predictions from a sociological research director.

Lynn White, speaking at the fifth Brown Bag Lecture sponsored by the University Program's Council, said that because of Nebraska's economic structure and population status, Nebraskans won't be hindered by the passage of time.

She told about 20 people that to predict the quality of life in the year 2000, a person must look at what makes that quality high now.

"You take that information and ask how much these factors will change," she said.

Because Nebraska is mainly an agriculture state, and the demand for agricultural goods will increase in the next 20 years, Nebraska's economic structure will probably not change.

Also, she said that when studying Nebraska's population growth, the number of "in migrants" is beginning to steadily supersede the number of "out migrants."

Nebraska's educational quality level is far above the national average, she said. The crime rate is far below, and Nebraskan's life expectancy is one of the highest in the nation, she added.

However, it's not as if there aren't

problems, she said. Nebraska's income and job availability levels are lower than the national average.

Yet, with all of the objective criteria averaged, she said that Nebraska is still considered "a very good place to live."

Eleven engineering students receive general motors scholarships

Eleven University of Nebraska-Lincoln College of Engineering and Technology students have been awarded General Motors Scholarships.

Recipients of \$500 scholarships for use during the 1979-80 academic year are: Harold Paul Debban of Kearney; Gregg S. Drvol of Omaha (6123 Lamplighter Dr.); Lance T. Goin of Wymore; Charles Michael Iles of Des Moines, Iowa; Gaylin Jepsen of Omaha (4966 S. 95th Circle); Thomas M. Mayhan of Omaha (4702 Grover); Arthur E. Meister of West Point; Kendall G. Moore of Wymore, and Joyce Pollock of Fremont.

Recipients of \$250 for the first semester are: Alan McGee of Columbus and Bryan Laverne Flamig of Dalton.

Invention pres. to speak on education future

The future of education in America will be the topic of the second annual Frank England Sorenson lecture.

Warren Ziegler, president of the Futures-Invention Associates of Denver, Colo., will speak at 10:30 a.m., July 25, in the Nebraska student union.

The title of the speech in "The Future in Education and Education in the Future."

The Future Invention Associates of Denver develops and implements future invention activities with organizations and communities. The organization also develops texts, materials and instruments for future inventions, civic literacy and life-long learning.

Ziegler is also an associate professor of education at Syracuse University in

Syracuse, N. Y.

With Sorenson's death in 1977, friends and colleagues established a fund to form the Frank England Sorenson Lecture series.

Sorenson served as director of summer sessions at UNL for 20 years.

While he was director of summer sessions he also served as president of the Association of University Summer Schools in 1956. In 1963 he served as the president of the Association of University Summer sessions.

Dr. Sorenson served a total of 33 years at the university.

Before coming to UNL, Sorenson served as teacher, principle and superintendent in several Nebraska communities.

Four UNL students graduate with honors

(One student who received her degree Friday July 13) at the University of Nebraska-Lincoln received her degree "With Highest Distinction" and three other students earned their degrees "With High Distinction."

The student who earned her degree "With Highest Distinction" — the highest academic honor conferred on a graduating student — was Mrs. Clayvena D. Capek, Lincoln, 2321 Knolls. Mrs. Capek, the mother of three children, majored in history and minored in political science. She plans to pursue graduate studies in history at UNL starting this fall.

The students who received their degrees "With High Distinction" were: Mrs. Carol Arlene Strelow Johnson of Lincoln (1860 High St.), mother of two children and her wife of Glen Johnson,

associate professor of physical education and recreation at UNL. Mrs. Johnson, who majored in distributive education, will receive a bachelor of science in education degree from Teachers College. (She is formerly of Windna, Minn.) She plans a career in teaching at the secondary level.

Tricia Lynn Jorgenson, daughter of Mr. and Mrs. Virgil K. Jorgenson, Hershey, who majored in accounting and will receive a Bachelor of Science degree from the College of Business Administration. She will be a staff accountant for Touche Ross and Co., Lincoln.

Mary Margaret Desch, Grand Island. Miss Desch, currently enrolled at the University of Nebraska Medical Center, will receive a Bachelor of Science degree from the College of Arts and Sciences.
