

Birkenstock

Feet in the sand make footprints. Feet in Birkenstock footwear do the very same thing. The Birkenstock footbed is heat and pressure sensitive, to mold to your foot, and become your footprint. So walking in Birkenstock is a lot like walking barefoot in the sand, with one very convenient difference.

You can walk in Birkenstock all year long.

Let your feet make a place for themselves.

Letter.....

Continued from page 1

"We need a strong leader, but now we have lost him," Simmons wrote of Roskens.

Simmons asked the senators to deal with the university budget request early in the session, so "we will have time to correct our mistake in again counting on too much, and can change our program to live on our income, instead of making our faculty again pay for our mistake in planning too big."

State Sen. Howard Lamb of Anselmo, who received Simmons' letter, would not comment on Simmons' charges against Roskens.

LAMB SAID, however, that the university, like all political subdivisions, will have to look closely at its programs, to "trim wherever possible."

ASUN President Bud Cuca said he feels that both Simmons and Roskens are right and that the conflict represents a differ-

ence of philosophies.

Roskens is doing his job by trying to get more money and Simmons is doing his job by trying to cut down on the amount of money spent, he said.

However, Cuca said that he feels some areas of the NU Budget could be cut.

"I honestly feel that there are some areas of the university that need to be looked into," Cuca said.

SOME OF THE support areas could possibly take a cut in their budgets, he said.

The one area Cuca said should not suffer is faculty salaries because it directly affects the quality of education.

Roskens said he had not seen the letter, and had no comment concerning Simmons' comments.

Concerning the budget recommendation, Roskens said that inflation has caused hard times for the university. "I have to present the situation of the university as candidly as possible," he said.
