Northern Natural giving refunds

OMAHA, Neb.—Northern Natural Gas Co. will refund \$11.4 million to customers in seven states for natural gas overcharges between 1972 and 1977. Nebraska, with 13 percent of Northern's sales, will receive about \$1.4 million.

reserve program. Officials announced the action Wednesday, just as this fall's harvest of new grain is getting underway in the major Corn Belt areas.

The 1979 corn crop is estimated at a record of 7.27 billion bushels, but demand for the grain in the coming year is expected to be even larger than the huge crop.

Release of the stored grain theoretically adds to the available supply and could dampen market prices from their relatively high levels at the present time.

a.p. datelines

The overcharges occurred, said a Northern spokesman, because of differences between the estimated and actual costs permitted in federal tariffs.

The overcharges were contained in the annual purchased gas adjustment which Northern passes along to customers.

Grain released

WASHINGTON—The Agriculture Department has released more than half a billion bushels of old-crop corn that farmers have stored under the government's grain

Chemical dumped

SAN JOSE, Calif.—Health officials, warned by a bizarre anonymous letter, said Wednesday that hundreds of people may have been exposed to a suspected cancer-causing chemical deliberately dumped in three swimming pools.

Traces of Silvex, a powerful herbicide, and the chemical 2,4D, which contains the suspected carcinogen dioxin, were discovered last week in a pool at Oakwood Gardens North, a 1,000-unit complex in west San Jose. Tuesday, similar traces were found in two pools at Oakwood Gardens South, a 780-unit complex about a mile away.

So far nobody has reported ill effects from swimming in the contaminated water.

calendar
