

Photo by Mark Billingsley

Unusually warm temperatures that peaked somewhere around the 60 degree mark drove hundreds of Lincoln residents outdoors Sunday afternoon. Drake Uhlinger and Dave Hill patiently await the decision of the frisbee football huddle at Pioneer's Park, where many area residents were seen enjoying the weather in shirt sleeves and cut-offs.

A world of careers in Aerospace for tomorrow-minded college graduates.

See our representative on campus Feb. 7, 8

Our Denver Division has many new opportunities awaiting college graduates. Major facilities are located at Denver, CO.; New Orleans, LA.; and Santa Maria, CA.

Careers Begin Here

If you're considering a career in aerospace, you won't find the challenge greater nor the work more rewarding than at Martin Marietta. Work in such exciting areas as Command and Information Systems, Solar Systems, Space Satellites, and Payload Integra-

tion. Overall, we have over 300 contracts including 4 major contracts over 150 million dollars each extending into the 1980's. They include the external fuel tanks for the Space Shuttle, Space Launch Systems, Titan, Space and Defense Systems including the new generation mobile Missile X.

Opportunities Now

Within these areas are many entry-level growth positions that offer practical experience in the advanced state of the engineering art. Such fields as • Software • Test • Propulsion • Thermophysics • Structures • Mechanisms • Dynamics • Stress • Materials • Mission Analysis • Product Development • Industrial Engineering • Logistics • Integration • Systems • Guidance & Control • RF Systems • Communications • Data Handling • Power Systems • Payloads & Sen-

sors • Quality • Safety, and Manufacturing.

In addition to job opportunity the company's comprehensive program of employee benefits has a financial value equivalent to approximately forty percent of the employee's income. Included are: Company-paid insurance, performance sharing plan, retirement plan, vacation, education reimbursement and long term disability plan.

Interested graduates please contact Martin Marietta Aerospace, Attn: College Relations, P.O. Box 179 (#D6310) Denver, CO 80201.

Women in business form support group

By Julie Bird

An organization designed to create a statewide support network for women business owners is successful and growing, the group's organizers say.

The Association of Women Entrepreneurs (AWE) was started in the fall of 1979 after Connie Clark, owner of the Pioneer Diet Center, and Elaine Waggoner, a partner in Waggoner & Hays law firm, were inspired by a seminar on women in business.

Clark and Waggoner obtained mailing lists from different organizations and informed women across the state about forming the group. The UNL Small Business Center provided money for their mailing. About 150 women are on the mailing list now, Clark said, and they continually meet more women who are interested in joining.

"We need each other," Clark said. "It's lonely at the top, the bottom and the middle. This group provides a network of emotional and financial support for women business owners."

The group offers advice in "how to's," like how to get loans, how to set up business accounts and other financial matters, Clark said.

"Most women haven't had much experience with handling money," she said. "We are not conditioned or trained to make decisions, have them fall apart, and then learn to live with them."

Small business owners have had groups such as the Kiwanis, Waggoner said, adding that women need to develop those channels for themselves. She compared those primarily male-oriented groups to college fraternities, where the men go to each other for help in business and financial affairs as well as personal ones.

Sororities generally do not have that type of business network, said Waggoner, a former UNL sorority member.

"Now," Waggoner said, "we've graduate and reinvented the wheel."

"A lot of people who go into business don't understand what's involved," Clark said. "It takes every resource you have."

AWE elected officers in a meeting Saturday and set dues and future meeting dates. They plan alternate meeting dates on the first Wednesday or Saturday of each month. The next meeting is scheduled for Feb. 6 at 6:30 p.m. The location will be announced later.

Art show entries needed

Entries are sought from Nebraska schools for the 33rd Annual Nebraska Elementary School Art Exhibit, which will be in Lincoln March 22-29 at Miller and Paine's downtown store.

Sponsored by the UNL Division of Continuing Studies and Miller and Paine, the exhibit attracts about 3,000 entries, from which 300 to 400 entries are selected for the exhibit.

All entries should be submitted through the student's school and are due in Lincoln no later than Feb. 1. After the Lincoln exhibit, several traveling exhibits will be assembled.

HOUSE of FLOWERS

Welcome them back with a bouquet of fresh flowers.
