I hardly agree that the choice is "adequate", as the governor says, and also because he has received much more income throughout his life by serving the Association of Commercial Broadcasters.

Back to basics, I hope KUCV gets its transmitter fixed so I can enjoy its reception, even though the transmitter is a KFOR discard.

APU supported

The Progressive Student Union supports the position of the UNL African People's

Union that the donation of 1,300 Krugers to the NU Foundation be returned. We agree with APU that we have no moral right to these coins or to money in exchange for them. This gold rightfully belongs to the disenfranchised, exploited, and oppressed black majority in South Africa.

We also support the resolution which calls for an end to all economic involvement of the university in the racist South African regime.

Oral surgery to be offered

Many types of oral surgery, including wisdom tooth extractions, will be performed at the University Health Center on a three month trial basis beginning Feb. 19.

According to Dr. O. Garland Bare, medical director of the health center, the new service will be more convenient for students.

"It is hard for students to get oral surgery elsewhere," Bare said. The new service is not covered by student fees, Bare said, so students will have to pay regular community rates.

"Lincoln's rates are comparatively lower than those of other communities, though," Bare remarked.

Dr. James Wickless and Dr. Jerry D. Schoettger, Lincoln dentists, will perform oral surgery at the health center.

"We want to schedule surgery for twice a week," Wickless said. "I will be there on Tuesday afternoons, and we will determine the other afternoon at a later date, depending on Dr. Schoettger's schedule."

Wickless said the Dental Clinic at the University Health Center had been aware of the need for oral surgery at the clinic, and specifically asked for the coverage.

Students interested in the service should make appointments through the University Health Center Dental Clinic.
