

Candidates . . .

Continued from Page 1

Hefner said it is ridiculous to close the Regional center because the Donahue Report has shown that the cost per patient at NRC is the least expensive of the three state centers.

Hefner said there are a lot of senators who, when they get elected, think they know more.

He said, "I'm the same old Hefner. I may have more research behind me, but still the same."

Hefner said there should be more use of state sales and income taxes to support funding of elementary and secondary schools. He said the property taxes are beginning to be too much of a burden on those paying them.

Hefner said there should be a fairer formula of appropriating state aid to schools that will benefit the rural areas instead of the cities and urban schools.

He said the Legislature can do this now if they will just decide to do it.

Hefner said that the drive to give away Nebraska to South Dakota by the State Boundary Commission, will probably not be successful.

Hefner said one of the reasons the Boundary Commission tried to justify moving the boundary was that there were many border landowners paying taxes to both South Dakota and Nebraska. Hefner said at a recent commission meeting, he provided evidence that there was only one individual doing this.

Hefner said there just wasn't enough time and research spent on the recommendation to move the boundary. Hefner said the idea of increased revenues for hunting and fishing was brought up at the meeting, but denied by officials from the State Boundary Commission.

Hefner is part owner of the Hefner Oil and Feed Company in Coleridge, Neb. Hefner was elected to the Legislature in 1976 after being endorsed by retiring Sen. Jules Burbach from the 19th District.

European tapered button down shirts in the traditional American button down style by Mercedes

exclusively at Jason's, 14th & "P"

\$19.²⁰ Plain colors
\$20.⁸⁰ Stripes

JASON'S

Study tours planned for Christmas

The UNL Flights and Study Tours plans tours in Europe, Mexico and Bali.

Credit and noncredit tours are available to the public and registrations are being accepted now. The tours depart Dec. 26 and return Jan. 11, 1981.

Study subjects are advertising, architecture, dance, education, languages, law, photography, political science, psychology and sociology. NU professors from Lincoln and Omaha will teach.

The noncredit tour itinerary will allow two to four days in each of the following cities: London, England; Heidelberg, Germany; Interlaken, Switzerland; Paris, France. The tour will include a half-day guided tour in London; group activities like walking tours, group meals, and concert tickets arranged by university representatives as tour members desire; and freedom for members to explore on their own.

For more information on these tours sponsored by the UNL Division of Continuing Studies and International Educational Services, contact Christa Joy, Flights and Study Tours, 345 Nebraska Union, UNL, Lincoln, Neb., 68588; phone: 402/472-2844.

Dance to the music of the Star City Players

Two bands, Windsong and Mirage have combined talents and created a new style. This six piece band, formed last spring, has contributed a song on the soon to be released KFMQ Home Grown Album.

October 31

10:30 pm. - 1:30 am.

Nebraska East Union

TOMORROW'S SHIPS NEED YOUR MIND TODAY

We'll put that degree of yours to work on some of the most challenging problems facing Navy Scientists and Engineers.

As a civilian employee, you'll be involved in research, development, test and evaluation of advanced ship designs and naval technological concepts.

The success of tomorrow's naval missions depends on what you can be doing today. Get the most you can from that degree of yours. Be one of the Engineering and Science graduates who take advantage of the many opportunities to be a pioneer.

On-Campus interviews scheduled for: **NOVEMBER 12, 1980**

Contact your Placement Officer to arrange for interview.
