

**ELECTRONICS CENTER
SPEAK ANY LANGUAGE
WITH THE
TOUCH OF A BUTTON!**

Introducing the Craig M100 Translator and Information Center. The same advanced technology that enabled Craig to introduce the world's first pocket electronic calculator in 1971 now has been further refined to look up and translate thousands of words, phrases, and even complete sentences in many languages.

In building up a vocabulary for your M100, our objective has been to facilitate basic communication -- to provide a body of words and phrases which can be put together to clearly convey thoughts, needs, and questions.

Its straightforward operation and compact size make the M100 simple and easy to use -- as a personal interpreter when you travel or as a valuable language learning aid.
