

New tax . . .

Continued from Page 1

"The USDA, David Stockman and Alexander Haig, don't understand that it isn't a faucet that you can turn on and off in regards to crops," Zorinsky said.

He said people back in Washington make decisions based on "the mood of the day" and that's what's causing problems with agriculture.

A problem in Congress is that too many senators vote in the interests of their parties instead of their states, Zorinsky said.

"There's too many Republican senators and there's too many Democrat senators and not enough United States senators," he said. "The country is bigger than the party."

In response to a question from the audience, Zorinsky spoke of a proposed pension program that would help bail out the suffering Social Security program.

The National Pension Program would serve those people not yet in the Social Security program, or those who wish to transfer from Social Security benefits, he said.

"It would be a parallel system to the Federal Reserve System, where politicians couldn't get their hands on it," he said. "And you'd get what you pay for."

He said the money paid in would be invested in the private sector.

Women's Resource Center programs to feature discussion of ERA passage

By Leslie Bellstroff

The last year of possible ratification for the Equal Rights Amendment is the motive for two programs being planned by the Women's Resource Center, the center's coordinator said Wednesday.

Marcee Metzger said someone from the speaker's bureau of the Nebraska Commission on the Status of Women has been scheduled to appear on campus in November. During Women's Week in April, the center hopes to have a regional or national speaker discussing the ERA, she said.

"We have a number of educational programs on the ERA, but we won't have any major programming," Metzger said, explaining that unless the attorney general changes his ruling, the ERA has been ratified in Nebraska.

Metzger said a library and research file collection of several thousand books relating to women's lives, weekly support groups and weekly feminist forums are

some of the services regularly offered by the center in the Nebraska Union.

There will be a women's support group and a lesbian rap group meeting on Wednesday evenings, Metzger said. Meeting times for another women's support group and a men's group will be decided by those who have signed up for them.

Feminist forums will meet every Thursday evening, Metzger said. Some of the programs will include a film and discussion of women's self-health, led by Pat Dean, and "Feminism and Peace" with Moni Usasz, president of Nebraskans for Peace, and Dr. Helen Moore, a sociology professor at UNL.

Along with the YWCA the center will be sponsoring a workshop about women's survival and energy issues, and weekly seminars called "Women in Perspective." The group will also sponsor a lecture on sexual harassment and an all-day workshop on women's self-protection, Metzger said.

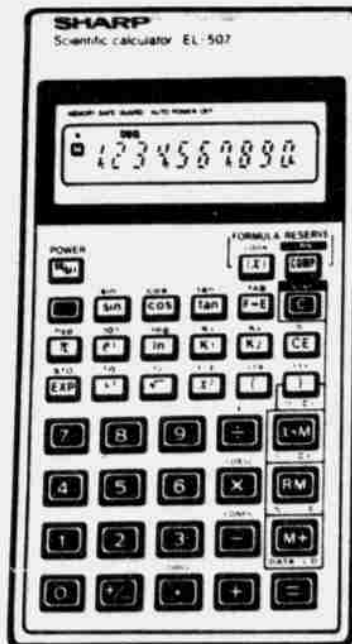

"We have not lined up all our speakers for the whole year; we would find any suggestions for programs or topics helpful," Metzger said.

Sharp calculators are now even lower.

Scientifics...

Model EL-506
Full-featured Scientific Calculator with 3-key Independent Memory.
10-digit liquid crystal display. 3-key independent memory. One-touch percent and square root keys. Automatic Power-Off prolongs battery life. Performs hyperbolics, polar coordinates, time conversions. 3 levels of parentheses/4 pending operations.
Sugg. Price \$29.95
Now til 9/12/81 \$24.95
After 9/12/81 \$27.50

Model EL-507
Extra Full-Featured "Programmable" Scientific Calculator with Built-in Statistic Functions.
Store up to 38 program steps built up from any of the 507's scientific functions. 15 levels of parentheses with up to 7 pending operations. Easy-to-read 10-digit LCD. Scientific notation. Memory Safe-Guard feature.
Sugg. Price \$39.95
Now til 9/12/81 \$33.95
After 9/12/81 \$35.50

Model EL-508
Hand-Held with 31 Scientific Functions.
Some of the 31 scientific functions performed at the touch of a key are: trigonometric (sin, cos, tan), and their inverses; exponential (base 10 and base e) and their inverses (logarithms); power (yx) and its inverse ("x root of y"); factorial (n!); 3 angle modes (degree/radian/gradian); mean, sum, and standard deviation. Easy-to-read 8-digit LCD.
Sugg. Price \$19.95
Now til 9/12/81 \$16.95
After 9/12/81 \$17.50

Model EL-509
Wallet-Sized Full-Featured Scientific Calculator with Built-in Statistics.
Some of the 31 scientific functions performed at the touch of a key are: trigonometric and their inverses; exponential and their inverses; power and its inverse; factorial; 3 angle modes; mean, sum and standard deviation. Easy-to-read LCD. Scientific notation. Independently accessible 3-key memory.
Sugg. Price \$24.95
Now til 9/12/81 \$18.95
After 9/12/81 \$22.50

The hand holds...

Model EL-1186
Hand-Held Print/Display 10-Digit Calculator.
Full print-out of 10 numerals and symbols on plain paper tape. Built-in paper holder allows for greater portability. Easy-to-read 10-digit liquid crystal display. Independently accessible 3-key memory. Item counter key totals number of entries. Comes with soft case and 4 paper rolls.
Sugg. Price \$49.95
Now til 9/12/81 \$42.95
After 9/12/81 \$45.50

Model EL-1186
Hand-Held Print/Display 10-Digit Calculator with Built-in Paper Holder.
Full print-out of 10 numerals and symbols on plain paper tape. Built-in paper holder allows for greater portability. Easy-to-read LCD. Independently accessible 3-key memory. Item counter key totals number of entries. Comes with Ni-Cad rechargeable battery, AC adaptor, soft case, and roll paper.
Sugg. Price \$69.95
Now til 9/12/81 \$59.95
After 9/12/81 \$63.50

Open Monday-Friday, 8-5:30, Saturday, 9-5:30
