You can buy the same contacts. But not the same care.

What's care?
 Extra things.
 Like free consultation appointments. Appointments within 24 hours. A 30-day trial. And help for anyone with a contact lens problem.
 Care is all these things, plus professional eye exams.
 So shop around.
 Then buy your contacts and a lot of extra care.
 From International Contact Lens.

Budgets reduced. . .

Continued from Page 1

The committee's most drastic recommendation for the union budget is to cut \$163,000 from the Campus Activities and Programs office budget.

CFA's recommendation would reduce many services provided by the CAP office, according to Sara Boatman, director of the CAP office.

CAP-East would be eliminated if CFA's recommended allocation is approved, Boatman said.

She added that the University Program Council would not be able to present

any major concerts at the Bob Devaney Sports Center.

CFA's recommendations also would reduce CAP's advising function to UPC. CFA's proposal would allow for one adviser to advise all 25 UPC committees. Currently CAP staff members share these duties.

Daryl Swanson, director of the Nebraska Union, said with CFA's recommended cuts the CAP office would lose six full-time professional staff positions, four graduate assistants, three clerical workers and three work-study positions.

Health center requests more funds

The University Health Center presented its 1982-83 budget request of \$2,244,787 to the Committee for Fees Allocation Thursday. This request of \$41.62 per person, per semester is \$6.92 more than the health center requested in its 1981-82 budget.

According to Steve Blom, health center administrator, the health center requested a continuance budget to provide the same services which are currently provided.

The health center requested \$6,500 to hire a psychology graduate student for the mental health department. According to Blom, this department has had a 25 percent increase in demand for counseling services.

Blom also requested \$3,000 to hire a part-time secretary for the physical therapy department.

center will have to support itself, however, Blom said.

For the first time in 24 years the health center requested a salary increase for health aides. Health aides currently receive \$5 per week. Blom requested a 50 percent increase to \$7.50.

According to Blom, 1981-82 was one of the first years that the health center had a health aide in all of the fraternities, sororities, residence halls and co-ops.

The health center probably has the fewest doctors of all health centers in the Big Eight - partly because of the health aide program, he said.

The number of health aide applicants has decreased in the last three or four years, though Blom said. One reason for this might be the small salary, Blom said.

Blom said that he would like to decrease health aides' expenses (by paying for their tuition) or increase their income
