Football seats taken

At the Saturday football game we found that we had no seats. Oh, the seats were there, but with people sitting in them. Upon questioning these people, we were told that someone was sitting in their seats because someone was sitting in their seats and so on. Luckily some people in the row behind us were kind enough to make room for one of us while the other two sat on his lap.

When we received our tickets last week we thought they were great seats, but evidently so did the people from other sections. We guess that's why they sat in our section. We all went through the lottery taking the same chance for getting good or not-so-good seats.

We understand that this has probably been going on for years and that we are not the first ones to lose our seats, but isn't there something that can be done? We also realize that if we got the police involved we would probably get our seats back, but only after the entire stadium played musical chairs.

As UNL students, one of our privileges is to be able to enjoy supporting our football team while sitting in the seats we paid for. We feel that with the situation as it is that it is nearly impossible to exercise this privilege.
