

Citizens to consider closing of 16th Street

A meeting to discuss plans for the closing of 16th Street on the UNL City Campus is scheduled for Tuesday at the Malone Center, 2032 U St.

Dick Erixson, director of the Public Works and Utilities Department, said the meeting is to inform the public. "All we're trying to do is to provide the residents of the area with what we see as the alternatives," Erixson said. "We want their reactions to the various proposals."

Erixson said the proposals will be reduced to about three of four ideas after next week's meeting.

"The proposals then go to a guidance committee which has representatives from the City Council, the mayor's office and the city departments involved," he said. "Then an environmental impact statement has to be made."

The City Council has the ultimate authority to decide which proposal to accept, Erixson said.

"Hopefully, they (the City Council) will take action sometime this fall," he said.

Even if the council takes action on the proposals before the end of the year, it would still be 12 to 15 months before the environmental impact studies would be completed, Erixson said.

"At the earliest it would be five years before all of this construction would be completed," he said.

A big factor in determining which proposal to accept would be the cost of the project, Erixson said.

"Some of these projects run up to \$20 million," he said. "We simply don't have the money for some of these proposals. We would have to get additional funding from the state or from the federal government."

Erixson said some sort of facility would have to be constructed to take care of extra traffic that the closing of 16th Street would create.

"If we simply closed 16th Street it would have a tremendous impact," he said. A replacement facility would be mandatory, in my view."

*Course Requirements

- * 18 or older
- * Weigh at least 110 lbs.
- * Be in good health

*Goals of course

- * Allow you to earn up to \$95 per month without interfering with your academics.
- * Satisfaction of knowing you are providing a therapeutic drug to treat hemophilia and other diseases.
- * Course offered Monday through Saturday. Just a short walk off campus.

O.K. SMARTY PANTS. THIS ONE'S FOR YOU.

The 1983 Pentastar Challenge Calendar.

A chance to win a scholarship, Chrysler product and more.

If you thought The New Chrysler Corporation was something different from other car makers, we're out to prove that you're right. We've developed the "Pentastar Challenge" as a small, but deserving tribute to American ingenuity and intelligence.

The Riddle

The challenge in the calendar is an intellectual one. Within the story and illustrations, we've woven an intricate pattern of clues in five different areas of academics; Music, Math, Computer Science, Chemistry and Literature. There's nothing physically hidden or buried. All you need to unravel the conundrums is a fairly sharp pencil and a very sharp mind.

The Reward

If you are the first to have solved any one of the five riddles, you'll be awarded a \$5,000 scholarship, a \$5,000 cash grant to your school, your choice of a 1983 Turismo or Charger to drive for a year and a gold Pentastar Medallion. There are also 100 second place prizes of silver medallions. The official rules are on the back of the calendar.

The Reason

We think you'll enjoy the Pentastar Challenge Calendar because it's functional, attractive and entertaining. Maybe you should also know that through special arrangement with your College Store, we're helping to support the operation of this very important part of your campus. Is Chrysler getting out of the car business and into the calendar business? No. But at \$4.98 maybe you'll be impressed with Chrysler enough to someday look at our cars. For us, that's the challenge.
