Computer science . . .

Continued from Page 1

department would not be a significant factor, he said.

As a part of its recommendation to separate the administrative and academic computing, Keller said, the task force is striving for more access to computers, a major student concern.

Some students in computer science say some of the problems could be solved by the instructors themselves.

Mitchell said some instructors in different sections schedule assignment due dates at the same time, which means a rush to the terminals by students.

Keller said this is the kind of problem that is discussed in faculty meetings and that many faculty members do try to spread out their due-dates on computer projects. However, he said there are still times when the computers end up being crowded.

Students also mentioned that terminals are not available for use at night, and it would help if computers not belonging to the computer science department, like some in Oldfather Hall, were made available to computer science students.

Keller said there may be other solutions to some of the money problems, including lab fees, graduated tuition and increased attempts to get direct grants.

He said the department now receives a "fair amount" of outside grant money each year but this is mostly for research to assist graduate studies.

However, Keller said he is optimistic that the department will have made considerable strides by next fall, especially in the area of student access to computer terminals.

In the meantime, Mitchell, Colligan and other computer science students will be kept waiting.

CASHBOX 101

A short course in economic convenience.

PROBLEM: You're out of cash. It's 6:45 AM, and you have solid classes today, starting with a 7:30 AM lab.

SOLUTION: On the way to your lab, stop at a CASHBOX Automated Teller (at Commercial Federal 1314 "O" St., 16th & South, or 56th & "O" — whichever is closest). CASHBOX is open every day at 6:00 AM, and it's so efficient, you can get cash and be on your way in less than a minute.

PROBLEM: It's 11:04 PM. You've just left the library when you remember the deposit you should have made to your Commercial Federal checking account today.

SOLUTION: Go to the nearest CASHBOX Automated Teller location at 1314 "O" St. Using your Commercial Federal account card, you can complete your deposit in a minute. And CASHBOX is open until midnight, seven days a week, in case this happens again.

PROBLEM: Your home town bank doesn't have a Lincoln branch, and that makes your finances pretty complicated.

SOLUTION: Chances are there's a Commercial Federal office in or near your home town. Any account you open there is an account at **every** Commercial Federal office, including the five in Lincoln (three with CASHBOX Automated Tellers).

That means a deposit made to your account in, say, Scottsbluff, is **instantly** available to you in Lincoln.

SUMMARY: With the load you carry, you have enough to think about. CASHBOX Automated Tellers are one way Commercial Federal can simplify your financial life during your demanding college years — and beyond.

If you're not a Commercial Federal customer, stop by any Lincoln office. We'd be glad to visit with you about CASHBOX and our other convenient financial services.
