How to make more money by taking a small "cut" in your pay

Saving part of your income isn't really the same as taking a cut in pay—though it might seem like it at first.

It seems a lot less like it when you save U.S. Savings Bonds on the Payroll Savings Plan.

First, the sum you're saving doesn't pass through your hands to tempt you. Secondly, you get the satisfaction of seeing your Bonds stack up—making your actual take home pay a lot bigger than you realize.

Millions of Americans have been taking this kind of pay cut for years. And they're all the richer for it.
