**SOME PEOPLE RETIRE WITH MORE THAN JUST A GOLD WATCH.**

You work hard all your life and what do you get?

Well, depending on where you work, you could get cancer.

Over the next several years the American Cancer Society will be conducting more research into certain lifestyles and exposures which could increase cancer mortality.

So know the risks.

Don't smoke.

Look for the warning signs of cancer.

And retire not only with a gold ticker.

But a healthy one, also.

How you live may save your life.
