

The University Health Center

It's Your Health Center

The University Health Center is established to provide comprehensive, accessible, and affordable health care services to UNL students 24 hours a day, seven days a week. These services include assisting you with acute or chronic medical problems and concerns, and also helping you to maintain and improve your personal health through individual and group wellness programs. The Health Center portion of your UPFF Fee enables us to provide services at special student rates. All services and medical records are treated confidentially. The Health Center staff welcomes back returning students and extends a special welcome to all new students.
